In that event, the failure of the foreign insurer to file an RBC plan with the commissioner is grounds to order the insurer to cease and desist from writing new insurance business in this state.

(4) In the event of a mandatory control level event with respect to any foreign insurer, if a domiciliary receiver has not been appointed with respect to the foreign insurer under the rehabilitation and liquidation statute applicable in the state of domicile of the foreign insurer, the commissioner may make application to a district court of this state permitted under 33-2-1380 with

HeinOnline -- 1995 vol. II 1349 1995

A PERIOD OF 8 MONTHS FROM THE DATE OF ISSUANCE; AMENDING SECTION 81-3-211, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 81-3-211, MCA, is amended to read:

"81-3-211. Inspection of livestock before change of ownership or removal from county — transportation permits. (1) For the purposes of this section:

(a) "Members of the same family" means a group whose membership is determined by including an individual, ~~his~~ *the individual's* spouse, and ~~his~~ *the individual's* parents, children, grandchildren, and the spouses of each.

(b) "Family business entity" means:

(i) a corporation whose stock is owned solely by members of the same family;

(ii) a partnership in which the partners are all members of the same family;

(iii) an association whose members all are members of the same family; or

(iv) any other entity owned solely by members of the same family.

(c) "Rodeo producer" means a person who produces or furnishes livestock that is used for rodeo purposes.

(2) Except as otherwise provided in this part, it is unlawful to remove or cause to be removed from a county in this state any livestock or to transfer ownership by sale or otherwise or for an intended purchaser or ~~his~~ *a purchaser's* agent to take possession of any ~~such animal~~ *livestock* subject to title passing upon meeting or satisfaction of any conditions, unless the livestock ~~has~~ *have* been inspected for brands by a state stock inspector or deputy state stock inspector and a certificate of the inspection has been issued in connection with and for the purpose of the transportation or removal or of ~~such~~ *the* change of ownership as provided in this part. The inspection must be made in daylight. However, the change of ownership inspection requirements of this subsection do not apply when the change of ownership transaction is accomplished without the livestock changing premises, involves part of a herd to which ~~no~~ livestock have *not* been added other than by natural increase or after brand inspection, and is between:

(a) members of the same family;

(b) a member of one family and the same family's business entity; or

(c) the same family's business entities.

(3)(a) It is unlawful to sell or offer for sale at a livestock market any livestock originating within any county in this state in which a livestock market is maintained or transported under a market consignment permit until the livestock has been inspected for marks and brands by a state stock inspector, as provided in this part.

(b) It is unlawful to slaughter livestock at a licensed livestock slaughterhouse unless the livestock has been inspected for marks or brands by a state or deputy state stock inspector.

(4) It is unlawful to remove or cause to be removed any livestock from the premises of a livestock market in this state unless the livestock has been released by a state stock inspector and a certificate of release for the livestock has been issued in connection with and for the purpose of the removal from the premises of the livestock market. The release obtained pursuant to this subsection will permit the movement of the livestock so released directly to the destination shown on the certificate.

(5) The person in charge of livestock being removed from a county in this state, where inspection ~~thereof~~ is required by this section or where change of ownership has occurred or when moved under a market consignment permit or a market release certificate, ~~shall~~ *must* have in ~~his~~ *the person's* possession the certificate of inspection, market consignment permit, transportation permit, or market release certificate ~~issued in connection therewith~~ and shall exhibit the certificate to any sheriff, deputy sheriff, constable, highway patrol officer, state stock inspector, or deputy state stock inspecter upon request. Section 81-3-204 ~~shall~~ *must* be extended to livestock transported or sold under the ~~above-mentioned~~ permits.

(6) The following transportation permits may be issued:

(a) If a saddle, work, or show horse is being transported from county to county in this state by the owner for ~~his~~ *the owner's* personal use or business or where a purebred cow is being transported from county to county in this state by its owner for show purposes and where there is no change of ownership, the inspection certificate required by this section may be endorsed, as to the purpose and extent of transportation, by the inspector issuing the certificate in order to serve as a travel permit in this state for a period not to exceed 1 year for the horse or cow described thereon. The permit becomes void upon any transfer of ownership or if the horse or cow is to be removed from the state. In such instances an inspection must be secured for removal and the endorsed certificate surrendered.

(b) The owner of a saddle, work, or show horse may apply for a permanent transportation permit valid for both interstate and intrastate transportation of the horse until there is a change of ownership. To obtain a permit a horse must have either a registered brand that has been legally cleared or a lip tatteo or the owner must present proof of ownership to a state stock inspector. A written application, on forms to be provided by the department, must be completed by the owner and presented to a state stock inspector, together with a permit fee established by the department, for each horse. The application ~~shall~~ *must* contain a thorough physical description of the horse and list all brands and tattoos carried by the horse. Upon approval of the application by a state stock inspector, a permanent transportation permit ~~shall~~ *must* be issued by the department to the owner for each horse, and ~~such~~ *the* permit ~~shall be~~ *is* valid for the life of the horse. If there is a change of ownership in a horse, the permit ~~shall~~ automatically ~~become~~ *is* void. The permit must accompany the horse for which it was issued at all times while the horse is in transit. This permit ~~shall be~~ *is* in lieu of other permits and certificates required under the provisions of this section. The state of Montana shall recognize as valid permanent

transportation permits issued in other jurisdictions to the owner of a saddle, work, or show horse subsequently entering the state. ~~Such a~~ *A* permit ~~shall be~~ *is* automatically void upon a change of ownership.

(c) When livestock owned by and bearing the registered brand of a bona fide rodeo producer is being transported from county to county in this state by the owner for rodeo purposes and where there is no change of ownership, the inspection certificate required by this section may be endorsed, as to the purpose and extent of transportation, by the inspector issuing the certificate in order to serve as a travel permit in this state for the livestock described ~~thereon~~ *in the certificate*. The certificate is effective for the calendar year for which it is issued. The certificate ~~shall~~ *must* be issued by a state stock inspector.

(d) An owner of livestock or ~~his~~ *the owner's* agent may be issued ~~a~~ *one* transportation permit *in a 12-month period* allowing the movement of ~~his~~ *the* livestock into an adjoining county and return when the livestock is being moved for grazing purposes and when it is being moved to and from land owned or controlled by the owner of the livestock or ~~his~~ *the owner's* agent. The permit is valid for ~~the~~ *a* period *of 8 months* from ~~March 31 through November 30 of the calendar year in which it is issued~~ *the date of issuance* and must be issued by a state stock inspector. The permit may be issued only if the livestock is branded with the permittee's brand, which must be registered in Montana. The department shall establish a fee for the permit, to be paid to the state stock inspector at the time the permit is issued and remitted by ~~him~~ *the inspector* to the department for deposit in the state treasury to the credit of the state special revenue fund for the use of the department. This permit may be used in lieu of the inspection and certificate required by this section for movement of livestock across a county line.

(7) Before any removal or change of ownership may take place, the seller of livestock shall request all required inspections and shall pay the required fees."

CHAPTER NO. 385

[SB 167]

AN ACT PROVIDING FOR THE REVIEW OF FEDERAL MANDATES TO STATE AND LOCAL GOVERNMENTS; REQUIRING AGENCIES TO IMPLEMENT FEDERAL MANDATES IN THE MOST COST-EFFECTIVE MANNER; PROVIDING FOR LEGISLATIVE REVIEW AND OVERSIGHT; REQUIRING A STUDY AND REPORT ON FEDERAL MANDATES; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short title. [Sections 1 through 8] may be cited as the "Federal Mandates Act".

Section 2. Legislative declaration. (1)(a) In enacting [sections 1 through 8], the legislature employs its legislative authority to establish that the people of tbe state of Montana, acting through their elected officials in state government, have the responsihility and authority to establish policy in and for Montana pertaining to federal programs mandated in federal statutes.

(b) The intent of the legislature is to ensure the primacy of the state of Montana's legal and political authority to implement in and for Montana the policy mandated by federal statutes and to vigorously challenge and scrutinize the extent and scope of authority asserted by federal executive branch agencies when federal agency actions and interpretations are inconsistent with Montana policy and exceed the lawful authority of the federal government or are not required by federal law.

(c) In tbis regard, the Montana legislature finds and declares that:

(i) the power to implement federal policies in and for Montana is central to the ability of the people of Montana to govern themselves under a federal system of government; and

(ii) any implementation of federal policies in and for Montana by federal executive branch agencies that is contrary to fundamental notions of federalism and self-determination must be identified and countered.

(2) The legislature further finds and declares that:

(a) there is an urgent need to modify federal mandates because the implementation of these mandates by the stato wastes the financial resources of local governments, the citizens of Montana, and the state and does not properly respect the rights of local governments, citizens, and the state;

(b) the state government has an obligation to the public to do what is necessary to protect the rigbts of Montana citizens under federal law while minimizing or eliminating any additional cost or regulatory burden on any citizen of the state;

(c) tbe 10th amendment to the United States constitution directs that powers that are not delegated to the United States are reserved to the states or to the people. Montana, as one of the sovereign states within the union, has

HeinOnline -- 1995 vol. II 1359 1995

constitutional authority to enact laws protecting the environment of the state and safeguarding the public health, safety, and welfare of the citizens of Montana. However, this authority has too often been ignored by the federal government. The federal government has intruded more and more into areas that must be left to the states. It is essential that the dilution of the authority of state and local governments be halted and that the provisions of the 10th amendment be accorded proper respect.

(d) current federal regulatory mandates, as reflected in federal administrative regulations, guidelines, and policies, often do not reflect the realities of the Rocky Mountain region, and federal regulators frequently do not understand the needs and priorities of the citizens of Montana;

(e) the citizens of this state can create and wish to create innovative solutions to Montana's problems, but the current manner in which legal challenges te state policies and federal programmatic substitutions of state programs are handled does not allow the state the flexibility it needs. It is not possible for the state of Montana to effectively and efficiently implement the provisions of federal statutes unless the burden to prove the insufficiency of the state's efforts to implement federal requirements is shifted to the person or agency who asserts the insufficiency.

(f) the provisions of [sections 1 through 8] will better balance the exercise of the powers of the federal government and the powers reserved to the states. In addition, the application of [sections 1 through 8] ultimately will bring about greater protection for the state and the nation because it will direct the state to implement federal statutes at the least possible cost and will make more money available for other needs.

(g) the purpose of [sections 1 through 8] is to ensure that federal mandates existing on or adopted after [the effective date of this act] that are implemented in Montana comply with state policy as established by the legislature;

(h) nothing in [sections 1 through 8] may he construed to create a private cause of action.

Section 3. Definitions. As used in [sections 1 through 8], unless the context otherwise requires, the following definitions apply:

(1) "Federal statute" means a federal statute that is in accord with the United States constitution and that imposes mandates on state or local governments.

(2) "Legislative council" means the statutory committee established in 5-11-101.

Section 4. State programs to implement federal statutes. (1) A state official or employee charged with the duty of implementing a federal statute shall implement the law as required hy the federal statute in good faith and with a critical view toward the provisions of any federal regulation, guideline, or policy in order to identify those provisions of any federal regulation, guideline, or policy that are inconsistent with Montana policy or do not advance Montana policy in a cost-effective manner.

(2) An executive branch agency of state government that is authorized to develop a state program to respond to any mandates contained in a federal

statute shall develop the state program and promulgate any necessary rules, using the following criteria:

(a) State programs should be developed by the state agency to meet the requirements of federal statutes in good faith and with a critical view toward any federal regulations, guidelines, or policies.

(b) State programs should be developed with due consideration of the financial restraints of local governments, the citizens of Montana, and the state, including the limitation imposed by Article VIII, section 9, of the Montana constitution.

(c) A state program that implements the goals of the federal statute should provide for the most efficient method possible, with careful consideration given to the cost of the program and the impact of the program on local governments and Montana citizens and on the long-range public health, safety, and welfare of citizens of the state.

Section 5. Requirement for budget recommendation — reporting on federal mandates — savings. Prior to recommending to the legislature a budget for a state agency that is charged with implementing federal mandates, the governor shall require that the state agency provide information regarding any monetary savings for the state and any reduction in regulatory burdens on local governments and on the public that could be or have been achieved through the development of state policies that meet the intent of applicable federal statutes but do not necessarily follow all applicable federal regulations, guidelines, or policies. The state agency shall also provide advice to the governor regarding any changes in state statutes that are necessary to provide the state agency the authority to implement state policies in such a way as to create additional savings or greater reductions in regulatory burdens. The governor shall review and compile the information received from state agencies pursuant to this section and shall include recommendations in the governor's budget based upon the information.

Section 6. Information regarding federal mandates. (1) The information prepared pursuant to [section 5] must be received by the governor prior to the governor's preparation of the state budget for the ensuing biennium. The governor may prepare additional requests for information to follow up and obtain further details regarding the initial responses that were received.

(2) In considering the legality or cost-effectiveness of a federal mandate, federal statute, or state program, the governor may request assistance from the legislative council or its staff, but assistance is at the discretion of the legislative council.

Section 7. Report — recommendations. (1) The governor shall examine the information received pursuant to [section 5] and, based upon the information, shall present a report to the legislature meeting in its next regular session that includes the following:

(a) recommendations regarding contracts that the state may enter into with specified persons or entities to conduct research, te analyze certain subjects, or to provide other services regarding federal mandates; and

(b) estimates of the cost of the federal mandate efforts submitted to the governor under the provisions of [section 5].

(2) If there is a finding that a federal mandate does not meet Montana's cost-effective needs, does not serve Montana public policy, or does not conform to Montana customs and culture, the governor may issue an executive order declaring the intention of Montana to not implement the mandate and may direct the attorney general to vigorously represent the state of Montana in any action that results from or that is necessary to effect the executive order.

Section 8. Legislative review and oversight. (1) In exercising its authority as an equal branch of state government, the legislature may conduct any legal review or fiscal analysis that it considers necessary te effect the purpose and intent of [sections 1 through 8]. The governor, the director or chief executive officer of any agency within the executive branch, or any officer listed in Article VI, section 1, of the Montana constitution shall, upon request by the legislature, immediately provide any information prepared, compiled, developed, detailed, described, referenced, analyzed, reported, or in any other manner considered in conjunction with [sections 1 through 8].

(2) In receiving the information described in subsection (1), the legislature is bound by the provisions of Article II, sections 9 and 10, of the Montana constitution.

(3) For the purposes of this section, the legislature includes the senate and the house of representatives, acting jointly or separately, and includes the legislative council.

(4) The legislature may request the assistance of any staff employed by the legislature.

Section 9. Severability. If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

For the purpose of this subsection, permanently and totally disabled means unable to engage in any substantial gainful activity by reason of any medically determined physical or mental impairment lasting or expected to last at least 12 months. (Subsection (2)(f) terminates on occurrence of contingency—sec. 3, Ch. 634, L. 1983.)"

Loans made from proceeds of coal severance tax bonds must be at interest rates specified in [sections 1 and 2], except that when loan requests are reduced, interest rates must be recalculated based on the methodology described in the renewable resource grant and loan program project evaluations and recommendations report submitted to the 54th legislature for the 1997 biennium. If the bonds or notes bear interest at an adjustable rate, the department of natural resources and conservation shall establish, at the time of the sale of each bond, an assured rate of interest as if the bond bore interest at a fixed rate. The assured rate of interest must be the rate of interest on the bonds for the purpose of calculating the interest rates on the loans pursuant to [sections 1 and 2].

Section 7. Private and discount purchase of loans. Loans to political subdivisions and local government entities and bonds, warrants, and notes issued in evidence of the loans may be made, purchased by, and sold to the department of natural resources and conservation at a discount and at private negotiated sale, notwithstanding the provisions of any other law applicable to political subdivisions or local government entities.

PURCHASE A TEMPORARY TRIP PERMIT; AMENDING SECTIONS 15-70-104 AND 15-71-102, MCA; AND PROVIDING EFFECTIVE DATES.

STATEMENT OF INTENT

A statement of intent is required for this bill because the department of transportation is required by 15-70-104 to adopt rules for the administration and enforcement of the tax on compressed natural gas. The legislature contemplates that rules promulgated under 15-70-104 address, at a minimum, the licensing of compressed natural gas dealers and, with respect to compressed natural gas dealers, requirements established by the department for reporting, recordkeeping, and invoicing.

Be it enacted by the Legislature of the State of Montana:

Section 1. Definitions. As used in [sections 1 through 17], the following definitions apply:

(1) "Bond" means:

(a) a bond executed by a compressed natural gas dealer as principal with a corporate surety qualified under the laws of Montana, payable to the state of Montana, conditioned upon performance of all requirements of [sections 1 through 17], including the payment of all taxes, penalties, and other obligations of the compressed natural gas dealer arising out of [sections 1 through 17]; or

(b) a deposit with the department by the compressed natural gas dealer, under terms and conditions that the department may prescribe, of certificates of deposit or irrevocable letters of credit issued by a bank and insured by the federal deposit insurance corporation.

(2) "Compressed natural gas" means a product that is used as a fuel and that contains carbon or hydrogen, or both, and is compressed to greater than 24 pounds per square inch absolute base pressure and up to 3,600 pounds per square inch absolute base pressure when sold for use in moter vehicles operated on the public roads and highways of this state.

(3) "Compressed natural gas dealer" or "dealer" means a person who delivers any part of compressed natural gas into the fuel supply tank or tanks of a motor vehicle.

(4) "Department" means the department of transportation.

(5) "Motor vehicle" means any vehicle that is self-propelled by compressed natural gas and that is driven upon the public roads and highways of this state.

(6) (a) "Person" means and includes any person, firm, association, joint-steck company, syndicate, partnership, or corporation.

(b) When used in any clause prescribing and imposing a fine or imprisonment, or both, as applied to a firm, association, syndicate, or partnership, person means and includes the partners or members of a firm, association, syndicate, or partnership; as applied to a joint-stock company or corporation, the term means and includes the officers of the joint-stock company or corporation.

(7) "Public roads and highways of this state" means all streets, roads, highways, and related structures that are:

(a) built and maintained with appropriated funds of the United States, the state of Montana, or any political subdivision of the state;

(b) dedicated to public use;

(c) acquired by eminent domain; or

(d) acquired by adverse use by the public, with jurisdiction having been assumed by the state or any political subdivision of the state.

Section 2. Compressed natural gas dealer's license. A person may not act as a compressed natural gas dealer in this state unless the person holds a valid compressed natural gas dealer's license issued by the department.

Section 3. Application for license. An application for a compressed natural gas dealer's license must be filed on a form prescribed hy the department. The application must contain information that the department considers necessary.

Section 4. Bonding, release of surety, and additional bond. (1) Except as provided in this section, a compressed natural gas dealer's license may not be issued to a person and may not be continued in force unless the person has furnished a bond, in a form prescribed by the department, to secure the dealer's compliance with [sections 1 through 17] and has paid all taxes, interest, and penalties due under [sections 1 through 17]. The department shall waive the bond requirement of a compressed natural gas dealer who is not subject to the provisions of subsection (2)(a) or (2)(b).

(2) The total amount of the bond or bonds required must be equivalent to twice the compressed natural gas dealer's estimated monthly tax payments but may not be less than $1,000 for any compressed natural gas dealer who:

(a) requests a compressed natural gas dealer's license to be reissued after the license was canceled for cause; or

(b) fails to file timely reports and pay the tax due as required by [section 11].

(3) A surety on a bond furnished as provided in this section must be released and discharged from any liability to the state accruing on the bond after 30 days from the date when the surety has provided to the department a written request to be released and discharged. However, this provision may not operate to relieve, release, or discharge the surety from any liability already accrued or that accrues before the expiration of the 30-day period. Upon receiving a release request, the department shall promptly notify the compressed natural gas dealer who furnished the bond, and unless the dealer, on or before tbe expiration of the 30-day period, files a new bond in accordance with the requirements of this section or makes a deposit in lieu of a bond as described in [section 1(1)(b)], the department shall cancel tbe dealer's license.

(4) The department may require a compressed natural gas dealer to give a new or additional surety bond or to deposit additional securities pursuant to [section 1(1)(b)] if the department determines that the security of the surety

bond previously filed by the dealer or the market value of the property deposited as security by the dealer is impaired or inadequate. If the compressed natural gas dealer fails to give an additional surety bond or to deposit additional securities within 30 days after being requested to do so by the department, the department shall cancel the dealer's license.

Section 5. Issuance of license — grounds for refusal — hearing. (1) Except as provided in subsection (2), upon receipt of the application and bond in proper form, the department shall issue to the applicant a license to act as a compressed natural gas dealer. A license is valid until suspended or revoked for cause or otherwise canceled.

(2) The department may refuse to issue a compressed natural gas dealer's license to any person:

(a) who formerly held a license that, prior to the time of filing the application, has been revoked for cause;

(b) who is not the real party in interest and the license of the real party in interest has been revoked for cause prior to the time of filing the application; or

(c) upon other sufficient cause being shown.

(3) Before refusing to issue a license, the department shall grant the applicant a hearing and shall provide the dealer with at least 10 days' written notice of the time and place of hearing.

(4) A compressed natural gas dealer's license is not transferable.

Section 6. Revocation of license — notice. (1) The department may revoke the license of any compressed natural gas dealer for reasonable cause. Before revoking a license, the department shall notify the licensee of the department's intent to revoke the license. The notice must be made by certified mail addressed to the licensee's last-known address shown in the files of the department. The notice must include a statement that the licensee has the right to appear before the department at a time specified in the notice and to show cause, if any, why the license should not be revoked. The time specified by the department may not be more than 30 days or less than 10 days from the date of the notice. At any time prior to and during the hearing, the department may in the exercise of reasonable discretion suspend the license.

(2) Upon revocation of a license, the licensee shall immediately surrender the license to the department for cancellation.

Section 7. Cancellation of license upon surrender. The department shall cancel a license to act as a compressed natural gas dealer immediately upon surrender of the license by the licensee.

Section 8. Tax on compressed natural gas. (1) Each compressed natural gas dealer shall collect the tax on compressed natural gas from the user at the time the compressed natural gas is placed into the supply tank of a motor vehicle.

(2) (a) The total tax cue is computed according to the formula provided in subsection (2)(b).

HeinOnline -- 1995 vol. II 1471 1995

(h) T = (R/V) x TV, where:

(i) T is the total tax due;

(ii) R is 7 cents;

(iii) V is 120 cubic feet of compressed natural gas at 14.73 pounds per square inch absolute base pressure; and

(iv) TV is the total volume of compressed natural gas placed into the supply tank of a motor vehicle.

(3) The dealer shall pay the tax to the department as provided in [section 11].

(4) The United States, the state of Montana, and any political subdivision of this state are exempt from the levy and imposition of this tax.

Section 9. Recordkeeping. (1) Each compressed natural gas dealer and each person importing, manufacturing, refining, dealing in, transporting, or storing compressed natural gas in this state shall keep all records, receipts, invoices, and other pertinent documents that the department may require and shall produce them for the inspection of the department at any time during regular business hours.

(2) The records, receipts, invoices, and other pertinent documents must he kept for a period of at least 3 years from the date on which the return to which they relate was required to have been made.

Section 10. Examination of records — enforcement — reciprocity. (1) The department shall enforce the provisions of [sections 1 through 17].

(2) The department or its authorized representative may examine the records, receipts, invoices, documents, and equipment of any compressed natural gas dealer or of any person importing, manufacturing, refining, dealing in, transporting, or storing compressed natural gas and may investigate the character of the disposition that any person makes of compressed natural gas in order to determine whether all taxes due under [sections 1 through 17] are being properly reported and paid. If the records, receipts, invoices, documents, and equipment are not maintained in this state at the time of demand, they must be furnished at the direction of the department or at the business location of the dealer or other person and must, if requested by the department, be accompanied by the dealer or other person.

(3) The department shall, upon request from an official who is responsible for the enforcement of the compressed natural gas tax law of any other state, the District of Columbia, the United States, a territory or possession of the United States, or a province of Canada, forward to the official any information that it has relative to the receipt, sterage, delivery, sale, use, or other disposition of compressed natural gas by any compressed natural gas dealer if the other governmental entity furnishes similar information to the department.

Section 11. Returns required — payment. (1) For the purpose of determining the amount of liability for the tax due under [sections 1 through 17], each compressed natural gas dealer shall file with the department a monthly tax return on forms prescribed by the department.

HeinOnline -- 1995 vol. II 1472 1995

(2) The dealer shall file the return on or before the last day of the next calendar month following the month for which the tax is due. For good cause, the department may grant a taxpayer a reasonable extension of time for filing, but the extension may not exceed 30 days.

(3) The tax return must be accompanied by payment of the amount of tax due under [section 8] for compressed natural gas sold during the preceding month.

Section 12. Penalties for refusal or failure to file return or pay tax when due. (1) If a compressed natural gas dealer refuses or fails to file a return required by [sections 1 through 17] within the time prescribed by 15-70-103 and [section 11], there is imposed a penalty of $25 or a sum equal to 10% of the tax due, whichever is greater, together with interest at the rate of 1% on the tax due for each calendar month or fraction of a month during which the refusal or failure continues. If a compressed natural gas dealer establishes to the satisfaction of the department that the failure to file a return within the time prescribed was due to reasonable cause, the department shall waive the penalty imposed by this section.

(2) Whenever a compressed natural gas dealer files a return but fails to pay in whole or in part the tax due under [sections 1 through 17], there must be added to the unpaid amount due interest at the rate of 1% per month or fraction of a month from the date the tax was due to the date of payment in full.

Section 13. Deficiency — penalty. If the department determines that the tax reported by a compressed natural gas dealer is deficient, the department shall assess the deficiency on the basis of information available to the department. There must be added to the deficiency interest on the deficient amount at the rate of 1% per month or fraction of a month from the date the return was due.

Section 14. Determination if no return made — penalty — presumption. (1) If a compressed natural gas dealer, whether or not the dealer is licensed, fails, neglects, or refuses to file a compressed natural gas tax return when due, the department shall, on the basis of information available to the department, determine the tax liability of the compressed natural gas dealer for the period during which a return was not filed and add to the tax determined the penalty and interest provided for in [section 12].

(2) An assessment made by the department pursuant to [section 12 or 13] or this section is presumed to be correct. Whenever the validity of the assessment is in question, the burden is on the person who challenges the assessment to establish by a preponderance of the evidence that it is erroneous or excessive.

Section 15. Fraudulent return — penalty. If a compressed natural gas dealer files a fraudulent return with intent to evade the tax imposed by [sections 1 through 17]:

(1) there must be added to the amount of deficiency determined by the department a penalty equal to 25% of the deficiency, together with interest at the rate of 1% per month or fraction of a month on the deficiency from the date

HeinOnline -- 1995 vol. II 1473 1995

the tax was due to the date of payment. The penalty and interest are in addition to all other penalties prescribed by law.

(2) the person is guilty of a misdemeanor and upon conviction shall be punishable by a fine of not less than $100 or more than $2,000 or imprisonment of not less than 30 days or more tban 6 montbs, or botb.

Section 16. Warrant for distraint. If all or part of the tax imposed by [sections 1 through 17] is not paid when due, the department may issue a warrant for distraint as provided in Title 15, chapter 1, part 7. The resulting lien has precedence over any other claim, lien, or demand filed or recorded after the lien is filed by the department. An action may not be maintained to enjoin the collection of all or any part of the license tax.

Section 17. Statute of limitations. Except in the case of a fraudulent return or of neglect or refusal to make a return, a deficiency must be assessed within 3 years from the due date of the return or the date of filing the return.

Section 18. Section 15-70-104, MCA, is amended to read:

The interest is payable as of the date on which the loan proceeds were or are transferred from the coal severance tax trust fund. The loan contract authorized under Chapter 354, Laws of 1993, must be revised to reflect the interest rates in this section and the transfer of the program from the department of health and environmental sciences to the department of justice. All obligations of the department of health and environmental sciences referenced in Chapter 354, Laws of 1993, and not completed by the time of transfer of the program to the department of justice must be transferred to the department of justice.

Section 4. Loan contract. In order to make the loan authorized in [section 1] and extend the previous loans authorized in Chapter 354, Laws of 1993, the board of investments shall enter into a revised contract with the department of justice pledging the amount recovered in the litigation to the repayment of the loans to the full extent allowable under the law. The contract must provide that loan repayments must be deposited in the coal severance tax permanent fund. To the extent possible, the board shall make the loan from the portion of the coal severance tax permanent fund invested in the short-term pool. The loan

STATEMENT OF INTENT

A statement of intent is required for this bill because 19-7-101 gives the public employees' retirement board authority to adopt rules that clarify the training and salary requirements for persons to be eligible for membership in the sheriffs' retirement system because of their appointment as deputy sheriffs.

HeinOnline -- 1995 vol. II 1490 1995

It is the intent of the legislature that only full-time, professional law enforcement officers be eligible for membership in the sheriffs' retirement system. Because persons without the requisite training and salary required to be paid to deputy sheriffs have been erroneously reported to the sheriffs' retirement system in the past, it is the intent of this bill to require the board te adopt rules that will reflect up-to-date training and salary requirements for appointed deputy sheriffs acting in a professional law enforcement capacity.

The legislature intends that persons employed in the following positions and who are not permanent, full-time law enforcement officers employed by county sheriffs not be eligible for membership in this retirement system: jailers; communications officers; other administrative, clerical, or support personnel; and other persons deputized to act as reserve deputies.

A statement of intent is further required for this bill because [section 2] gives the board authority to adopt rules to implement the provisions of the bill.

It is the intent of the legislature to provide the board with the option of generating fees from the sale of the use of mailing lists composed of participants in the retirement systems administered by the board. However, the legislature intends that such use be restricted by the board so that retirement system participants are neither deprived of their right of privacy concerning confidential information nor inundated with excessive mailings, particularly as concerns commercial interests, individual political candidates and ballot issues, or other specific political issues.

The legislature intends to allow the board discretion in promulgating rules concerning procedures to effectuate this intent. The legislature intends that the board have discretion to determine, for example, that mailings may not he allowed at all under this provision, that mailings may be tried for a limited period of time only, that mailings may be limited to tax-exempt organizations under section 501(c)(3) of the Internal Revenue Code, that specific types of mailings may be allowed, that mailings can be limited to specific categories of participants, or that participants have a right to be excluded from mailings on request.

The legislature intends that the fees generated by mailings for third parties not reduce the amount of appropriation otherwise allocated for the administration of the retirement system but be used as the board considers appropriate, such as for additional communication by the board with retirement system participants regarding retirement system rights, obligations, and similar issues.

A statement of intent is further required for this bill because general rulemaking authority is granted to the board to establish rules requiring employers to provide information germane to processing an application for disability retirement of a public employee retirement system member.

Tbe Americans With Disabilities Act of 1990 (ADA), 42 U.S.C. 12101, et seq., requires employers to define the essential elements of each position and to make reasonable accommodations for employees with disabilities.

In recognition of the purpose of the ADA, it is intended that the board, when determining if an applicant is totally and permanently disabled and thereby

eligible for benefits from one of the retirement systems administered by it, consider whether the member is able to perform the essential elements of the position after the employer makes accommodations required by the ADA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 2-6-109, MCA, is amended to read:

"2-6-109. Prohibition on distribution or sale of mailing lists — exceptions — penalty. (1) Except as provided in subsections (3) through ~~(7)~~ *(8)*, in order to protect the privacy of those who deal with state and local government:

(2) Fees generated by third-party mailings must be deposited in an account in the state special revenue fund and must be appropriated to the board for the benefit of participants of retirement systems administered by the board.

Before payment of the survivorship benefit, the teachers' retirement board shall transfer to the public employees' retirement system the contributions necessary to qualify this service in the public employees' retirement system as provided in subsections (2) and (3)."

The board shall notify the member in writing as to the change in status. If the disabled member disagrees with the board's determination, the member may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) A member whose disability retirement benefit is canceled because the board has determined that the member is no longer incapacitated must be reinstated to the position held by the member immediately before the member's retirement or to a position in the same classification with duties within the member's capacity if the member was an employee of the state or of the university. If the member was an employee of a contracting employer, the board shall notify the proper official of the contracting employer that the disability retirement benefit has been canceled and that the former employee is eligible for reinstatement to duty. The fact that the former employee was retired for disability may not prejudice any right to reinstatement to duty that the former employee may have or claim to have.

(4) If a member whose disability retirement benefit is canceled is not reemployed in a position subject to the retirement system, the member's service is considered, for the purposes of 19-2-602, to have been discontinued coincident with the commencement of the member's retirement benefit."

(8) Prospecting that is not conducted in an area designated unsuitable for coal mining pursuant to 82-4-227 or 82-4-228 and that is not conducted for the purpose of determining the location, quality, or quantity of a natural mineral deposit is not subject to subsections (1) through (7). However, a person who

conducts this prospecting shall file with the department a notice of intent to prospect that contains the information required by the department before commencing prospecting operations. If this prospecting substantially disturbs the natural land surface, it must be conducted in accordance with the performance standards of the ~~department's~~ *board's* rules regulating the conduct and reclamation of prospecting operations that remove coal. The department may inspect these prospecting and reclamation operations at any reasonable time."

Section 372. Section 82-4-227, MCA, is amended to read:

"**82-4-227. Refusal of permit.** (1) An application for a prospecting, strip-mining, or underground-mining permit or major revision may not be approved by the department unless, on the basis of the information set forth in the application, *in* an onsite inspection, and *in* an evaluation of the operation by the department, the applicant has affirmatively demonstrated that the requirements of this part and rules will be observed and that the proposed method of operation, backfilling, grading, subsidence stabilization, water control, highwall reduction, topsoiling, revegetation, or reclamation of the affected area can be carried out consistently with the purpose of this part. The applicant for a permit or major revision has the burden of establishing that the application is in compliance with this part and the rules adopted under it.

(2) The department may not approve the application for a prospecting, strip-mining, or underground-mining permit ~~where~~ *when* the area of land described in the application includes land ~~having~~ *that has* special, exceptional, critical, or unique characteristics or ~~that~~ *when* mining or prospecting on that area would adversely affect the use, enjoyment, or fundamental charactor of neighboring land ~~having~~ *that has* special, exceptional, critical, or unique characteristics. For the purposes of this part, land is defined as having these characteristics if it possesses special, exceptional, critical, or unique:

(a) biological productivity, the loss of which would jeopardize certain species of wildlife or domestic stock;

(b) ecological fragility, in the sense that the land, once adversely affected, could not return to its former ecological role in the ~~reasonable~~ *reasonably* foreseeable future;

(c) ecological importance, in the sense that the particular land has such a strong influence on the total ecosystem of which it is a part that even temporary effects felt by it could precipitate a ~~system-wide~~ *systemwide* reaction of unpredictable scope or dimensions; or

(d) scenic, historic, archaeologic, topographic, geologic, ethnologic, scientific, cultural, or recreational significance. ~~(~~In applying *the provisions of* this subsection *(d)*, particular attention should be paid to the inadequate preservation previously accorded Plains Indian history and culture.~~)~~

(3) The department may not approve an application for a strip- or underground-coal-mining permit or major revision unless the application affirmatively demonstrates that:

(a) the assessment of the probable cumulative impact of all anticipated mining in the area on the hydrologic balance has been made by the department

and the proposed operation of the mining operation has been designed to prevent material damage to the hydrologic balance outside the permit area; and

(b) the proposed strip- or underground-coal-mining operation would not:

(i) interrupt, discontinue, or preclude farming on alluvial valley floors that are irrigated or naturally subirrigated, excluding undeveloped rangelands that are not significant to farming on alluvial valley floors and ~~those lands as to~~ *excluding land about* which the ~~regulatory authority~~ *department* finds that if ~~the~~ *any* farming ~~that~~ will be interrupted, discontinued, or precluded, *it* is of such small acreage as to be of negligible impact on the farm's agricultural production; or

(ii) materially damage the quantity or quality of water in surface water or underground water systems that supply ~~these~~ *the* valley floors *described* in subsection (3)(b)(i).

(4) Subsection (3)(b) does not affect those strip- or underground-coal-mining operations that in the year preceding the enactment of Public Law 95-87 produced coal in commercial quantities and were located within or adjacent to alluvial valley floors or had obtained specific permit approval by the department to conduct strip- or underground-coal-mining operations within alluvial valley floors. If coal deposits are precluded from being mined under this subsection, the ~~commissioner~~ *director of the department* shall certify to the secretary of interior that the mineral owner or lessee may be eligible for participation in coal exchange programs pursuant to section 510(5) of Public Law 95-87.

(5) *(a)* If the area proposed to be mined contains prime farmland, the department may not grant a permit to mine coal on the prime farmland unless it finds in writing that the applicant:

(i) has the technological capability to restore the mined area, within a reasonable time, to ~~equivalent or higher~~ levels of yield ~~as~~ *equivalent to or higher than* nonmined prime farmland in the surrounding area under equivalent levels of management; and

(ii) can meet the soil reconstruction standards of 82-4-232(3).

(b) Nothing in this subsection applies to ~~any~~ *a* permit issued prior to August 3, 1977, or to any revisions or renewals ~~thereof~~ *of the permit* or to any existing strip- or underground-mining operations for which a permit was issued prior to August 3, 1977.

(6) If the department finds that the overburden on any part of the area of land described in the application for a prospecting, strip-mining, or underground-mining permit is such that experience in the state with a similar type of operation upon land with similar overburden shows that substantial deposition of sediment in streambeds, subsidence, landslides, or water pollution cannot feasibly be prevented, the department shall deleto that part of the land described in the application upon which the overburden exists. The burden is on the applicant to demonstrate that any area should not be deleted under this subsection.

(7) If the department finds that the operation will constitute a hazard to a dwelling ~~house~~, public building, school, church, cemetery, commercial or

institutional building, public road, stream, lake, or other public property, the department shall delete those areas from the prospecting, strip-mining, or underground-mining permit application before it can be approved. ~~In no case may strip~~ *Strip-* or underground-coal-mining *may not* be allowed:

(a) within 300 feet of ~~any~~ *an* occupied dwelling, unless waived by the owner;;

(b) ~~nor~~ within 300 feet of any public building, school, church, community, or institutional building, or public park;

(c) ~~nor~~ within 100 feet of a cemetery;

(d) ~~nor~~ within 100 feet of the outside right-of-way line of any public road, except where mine access roads or haulage roads join the right-of-way line. The department may permit the roads to be relocated or the area affected to lie within 100 feet of the road if, after public notice and opportunity for public hearing in the locality, a written finding is made that the interests of the public and the landowners affected will be protected.

(8) ~~No strip~~ *Strip-* or underground-mining may *not* be conducted within 500 feet of active or abandoned underground mines in order to prevent breakthroughs and to protect health or safety of miners. ~~The~~ *However, the* department shall permit an operater to mine near, through, or partially through an abandoned underground mine or closer to an active underground mine if:

(a) the nature, timing, and sequencing of specific strip-mine activities and specific underground-mine activities are jointly approved by the department and the regulatory authority concerned with the health and safety of underground miners; and

(b) the operations will result in improved resource recovery, abatement of water pollution, or elimination of hazards te the health and safety of the public.

(9) The department may not approve an application for a strip- or underground-coal-mining operation if the area proposed to be mined is included:

(a) within an area designated unsuitable for strip or underground coal mining; or

(b) within an area under review for this designation under an administrative proceeding, unless in ~~such~~ an area as to which an administrative proceeding has commenced pursuant to this part, the operator making the permit application demonstrates that prior to January 1, 1977, the operater made substantial legal and financial commitments in relation to the operation for which the operator is applying for a permit.

(10) A permit or major permit revision for a strip- or underground-coal-mining operation may not be issued unless the applicant has affirmatively demonstrated by its coal conservation plan that failure to conserve coal will not occur. The department may require the applicant to submit any information it considers necessary for review of the coal conservation plan.

(11) Whenever information available to the department indicates that ~~any~~ *a* strip- or underground-coal-mining operation *that is* owned or controlled by the applicant or by any person who owns or controls the applicant is currently in violation of Public Law 95-87, as amended, ~~or~~ any state law required by Public

Law 95-87, as amended, or any law, rule, or regulation of the United States or of any department or agency in the United States pertaining to air or water environmental protection, the department may not issue a strip- or underground-coal-mining permit or amendment, other than an incidental boundary revision, until the applicant submits proof that the violation has been corrected or is in the process of being corrected to the satisfaction of the administering agency.

(12) The department may not issue a strip- or underground-coal-mining permit or amendment, other than an incidental boundary revision, to any applicant that it finds, after an opportunity for hearing, owns or controls any strip- or underground-coal-mining operation that has demonstrated a pattern of willful violations of Public Law 95-87, as amended, or any state law required by Public Law 95-87, as amended, ~~of a~~ *when the* nature and duration *of the violations* and ~~with~~ resulting irreparable damage to the environment ~~to~~ indicate an intent not to comply with the provisions of this part.

(13) Subject to valid existing rights, no strip- or underground-coal-mining operations except those that existed as of August 3, 1977, may be conducted on lands within the boundaries of units of the national park system, the national wildlife refuge systems, the national wilderness preservation system, the wild and scenic rivers system, including study rivers designated under section 5(a) of the Wild and Scenic Rivers Act, or national recreation areas designated by act of congress."

Section 373. Section 82-4-231, MCA, is amended to read:

"**82-4-231. Submission of and action on reclamation plan.** (1) As rapidly, completely, and effectively as the most modern technology and the most advanced state of the art will allow, each operator granted a permit under this part shall reclaim and revegetate the land affected by ~~his~~ *the* operation, except that underground tunnels, shafts, or other subsurface excavations need not be revegetated. Under the provisions of this part and rules adopted by the board, an operator shall prepare and carry out a method of operation, plan of grading, backfilling, highwall reduction, subsidence stabilization, water control, tepsoiling, and a reclamation plan for the area of land affected by ~~his~~ *the* operation. In developing a method of operation and plans of backfilling, subsidence stabilization, water control, grading, highwall reduction, topsoiling, and reclamation, all measures shall be taken to eliminate damages to landowners and members of the public, their real and personal property, public roads, streams, and all other public property from soil erosion, subsidence, landslides, water pollution, and hazards dangerous to life and property.

(2) The reclamation plan shall set forth in detail the manner in which the applicant intends to comply with this section and 82-4-232 through 82-4-234, as amended, and the steps to be taken to comply with applicable air and water quality laws and rules and any applicable health and safety standards.

(3) The application for permit or major revision of a permit, which shall contain the reclamation plan, shall be submitted to the department.

(4) The department shall determine whether the application is administratively complete. An application is administratively complete if it contains information addressing each application requirement in 82-4-222 and

the rules implementing that section and all information necessary to initiate processing and public review. The department shall notify the applicant in writing of its determination no later than 90 days after submittal of the application. If the department determines that the application is not administratively complete, it shall specify in the notice those items which the application must address. The application shall be presumed administratively complete as to those requirements not specified in the notice.

(5) If the department determines that an environmental impact statement on the application is required, it shall notify the applicant in writing at the same time it gives the applicant notice pursuant to subsection (4).

(6) After the applicant receives notice that the application is administratively complete, ~~he~~ *the applicant* shall publish notice of filing of the application once a week for 4 consecutive weeks in a newspaper of general circulation in the locality of the proposed operation. The department shall notify various local governmental bodies, planning agencies, sewage and water treatment authorities, and water companies in the locality in which the proposed mining will take place of the application and provide a reasonable time for them to submit written comments. Any person having an interest which is or may be adversely affected or the officer or head of any federal, state, or local governmental agency or authority shall have the right to file written objections to the proposed initial or revised application for permit or major revision within 30 days of the applicant's published notice. If written objections are filed and an objector requests an informal conference, the department shall hold an informal conference in the locality of the proposed operation within 30 days of receipt of the request. The department shall notify the applicant and all parties to the informal conference of its decision and the reasons therefor within 60 days of the informal conference. The department may arrange with the applicant upon request by any party to the administrative proceeding for access to the proposed mining area for the purpose of gathering information relevant te the proceeding.

(7) The filing of written objections or a request for an informal conference shall not preclude the department from proceeding with its review of the application as specified in subsection (8).

(8) (a) The department shall review each administratively complete application and determine the acceptability of the application. During the review, the department may propose modifications te the application or delete areas from the application in accordance with the requirements of 82-4-227. A complete application is considered acceptable when the application is in compliance with all of the applicable requirements of this part and the regulatory program pursuant to this part.

(b) If the applicant significantly modifies the application after the application has been determined administratively complete in accordance with subsection (4), the department shall under this section either deny the application or conduct a new review, including an administrative completeness determination, public notice, and objection period.

(c) If an environmental impact statement is determined to be necessary prior to making a permit decision, the department shall complete and publish

HeinOnline -- 1995 vol. II 1779 1995

the final environmental impact statement within 365 days of the date of notice provided pursuant to subsection (5).

(d) Within 120 days after it determines that an application is administratively complete, the department shall notify the applicant in writing whether the application is or is not acceptable. If the application is not acceptable, the department shall set forth the reasons why it is not acceptable, and it may propose modifications, delete areas, or reject the entire application. All items not specified as unacceptable in the department's notification are presumed to be acceptable. If the applicant revises the application in response to a notice of unacceptability, the department shall review the revised application and notify the applicant in writing within 120 days of the date of receipt whether the revised application is acceptable. If the revision constitutes a significant modification under subsection (8)(b), the department shall conduct a new review, beginning with an administrative completeness determination.

(e) When the application is determined to be acceptable, the department shall publish notice of its determination once a week for 2 consecutive weeks in a newspaper of general circulation in the locality of the proposed operation. Any person having an interest that is or may be adversely affected may file a written objection to the determination within 10 days of the department's last published notice. If a written objection is filed and an objector requests an informal conference, the department shall hold an informal conference in the locality of the proposed operation within 20 days of receipt of the request. The department shall notify the applicant and all parties to the informal conference of its decision and the reasons therefor within 10 days of the informal conference.

(f) The department shall prepare written findings granting or denying the permit or major revision application in whole or in part no later than 45 days from the date the application is determined acceptable or from the publication of the final environmental impact statement, whichever occurs later. However, if lands subject to the federal lands program are included in the application for permit or major revision, the department shall prepare and submit written findings to the federal regulatory authority. If the department's decision is to grant the permit, the department shall issue the permit on the date of its written finding or, if any federal concurrence is necessary, on the date when such concurrence is obtained. If the application is denied, specific reasons for the denial must be set forth in the written notification to the applicant.

(g) If the department fails to act within the times specified in this subsection (8), it shall immediately notify the board in writing of its failure to comply and the reasons for the failure to comply.

(9) The applicant, a landowner, or any person with an interest that is or may be adversely affected by the department's permit decision may within 30 days of that decision submit a written notice requesting a hearing ~~by the board~~. The notice must contain the grounds upon which the requester contends that the decision is in error. The hearing shall be held within 30 days of the request. For purposes of a hearing, the ~~board~~ *department* may order site inspections of the area pertinent to the application. The ~~board~~ *department* shall within 20 days of the hearing notify the person who requested the hearing, by certified mail, and all other persons, by regular mail, of the findings and decisions. No person who presided at the informal conference may either preside at the hearing or participate in the decision thereon.

(10) In addition to the method of operation, grading, backfilling, subsidence stabilization, water control, highwall reduction, topsoiling, and reclamation requirements of this part and rules adopted under this part, the operator, consistent with the directives of subsection (1) of this section, shall:

(a) bury under adequate fill all toxic materials, shale, mineral, or any other material determined by the department to be acid producing, toxic, undesirable, or creating a hazard;

(b) as directod by rules seal off tunnels, shafts, or other openings or any breakthrough of water creating a hazard;

(c) impound, drain, or treat all runoff or underground mine waters so as to reduce soil erosion, damage to grazing and agricultural lands, and pollution of surface and subsurface waters;

(d) remove or bury all metal, lumber, and other refuse resulting from the operation;

(e) use explosives in connection with the operation only in accordance with department regulations designed to minimize noise, damage to adjacent lands, and water pollution and ensure public safety and for other purposes;

(f) adopt measures to prevent land subsidence unless the ~~board~~ *department* approves a plan for inducing subsidence into an abandoned operation in a predictable and controlled manner with measures for grading, topsoiling, and revegetating the subsided land surface. In order for a controlled subsidence plan to be approved, the applicant must show that subsidence will not cause a direct or indirect hazard to any public or private buildings, roads, facilities, or use areas, constitute a hazard to human life or health, or constitute a hazard to domestic livestock or to a viable agricultural operation, or violate any other restrictions the ~~board~~ *department* may consider necessary.

(g) stockpile and protect from erosion all mining and processing wastos until these wastos can be disposed of according to the provisions of this part;

(h) deposit as much stockpiled waste material as possible back into the mine voids upon abandonment in such manner as to prevent or minimize land subsidence. The remaining waste material shall be disposed of as provided by this part and the rules of the board.

(i) seal all portals, entryways, drifts, shafts, or other openings between the surface and underground mine workings when no longer needed;

(j) to the extent possible using the best technology currently available, minimize disturbances and adverse impacts of the operation on fish, wildlife, and related environmental values and achieve enhancement of such resources where practicable;

(k) minimize the disturbances to the prevailing hydrologic balance at the mine site and in associated offsite areas and to the quality and quantity of wator in surface water and ground water systoms both during and after strip- or underground-coal-mining operations and during reclamation by:

(i) avoiding acid or other toxic mine drainage by such measures as, but not limited to:

(A) preventing or removing water from contact with toxic-producing deposits;

(B) treating drainage to reduce toxic content which adversely affects downstream water upon being released to water courses;

(C) casing, sealing, or otherwise managing boreholes, shafts, and wells and keeping acid or other toxic drainage from entering ground and surface waters;

(ii) (A) conducting strip- or underground-mining operations so as te prevent, to the extent possible using the best technology currently available, additional contributions of suspended solids te streamflow or runoff outside the permit area but in no event shall contributions be in excess of requirements set by applicable state or federal law;

(B) constructing any siltation structures pursuant to (ii)(A) of this subsection prior to commencement of strip- or underground-mining operations, such structures to be certified by a qualified registered engineer to be constructed as designed and as approved in the reclamation plan;

(iii) cleaning out and removing temporary or large settling ponds or other siltation structures from drainways after disturbed areas are revegetated and stabilized and depositing the silt and debris at a site and in a manner approved by the department;

(iv) restoring recharge capacity of the mined area to approximate premining conditions;

(v) avoiding channel deepening or enlargement in operations requiring the discharge of water from mines;

(vi) preserving throughout the mining and reclamation process the essential hydrologic functions of alluvial valley floors in the arid and semiarid areas of the country; and

(vii) such other actions as the department may prescribe;

(l) conduct strip- or underground-mine operations in accordance with the approved coal conservation plan;

(m) stabilize and protect all surface areas, including spoil piles, to effectively control air pollution;

(n) seal all auger holes with an impervious and noncomhustible matorial in order to prevent drainage except where the department determines that the resulting impoundment of water in such auger holes may create a hazard to the environment or the public health and safety;

(o) develop contingency plans to prevent sustained combustion;

(p) refrain from construction of roads or other access ways up a streambed or drainage channel or in such proximity to such channel so as to seriously alter the normal flow of water;

HeinOnline -- 1995 vol. II 1782 1995

(q) meet such other criteria as are necessary to achieve reclamation in accordance with the purposes of this part, taking into consideration the physical, climatological, and other characteristics of the site;

(r) with regard to underground mines, eliminate fire hazards and otherwise eliminate conditions which constitute a hazard to health and safety of the public;

(s) locate openings for all new drift mines working acid-producing or iron-producing coal seams in such a manner as te prevent a gravity discharge of water from the mine.

(11) An operator may not throw, dump, pile, or permit the dumping, piling, or throwing or otherwise placing any overburden, stones, rocks, mineral, earth, soil, dirt, debris, trees, wood, logs, or any other matorials or substances of any kind or nature beyond or outside of the area of land which is under permit and for which a bond has been posted under 82-4-223, as amended, or place the materials described in this section in such a way that normal erosion or slides brought about by natural physical causes will permit the materials te go beyond or outside of that area of land. An operator shall conduct the strip- or underground-mining operation in such a manner as to protect areas outside the permit area."

Section 374. Section 82-4-232, MCA, is amended to read:

"**82-4-232. Area mining required — bond — alternative plan.** (1) Area strip mining, a method of operation which does not produce a bench or fill bench, is required where strip mining is proposed. All highwalls must be reduced and the steepest slope of the reduced highwall shall be no greater than 20 degrees from the horizontal. Highwall reduction shall be commenced at or beyond the top of the highwall and sloped to the graded spoil bank. Reduction, backfilling, and grading shall eliminate all highwalls and spoil peaks. The area of land affected shall be restored to the approximate original contour of the land. When directed by the department, the operator shall construct in the final grading such diversion ditches, depressions, or terraces as will accumulate or control the water runoff. Additional restoration work may be required by the department according to rules adopted by the board.

(2) In addition to the backfilling and grading requirements, the operater's method of operation on steep slopes may be regulated and controlled according to rules adopted by the board. These rules may require any measure whatsoever to accomplish the purpose of this part.

(3) For coal mining on prime farmlands, the board shall establish by rule specifications for soil removal, storage, replacement, and reconstruction, and the operator shall as a minimum be required to:

(a) segregate the A horizon of the natural soil, except where it can be shown that other available soil materials will create a final soil having a greater productive capacity; and if not utilized immediately, stockpile this material separately from other spoil and provide needed protection from wind and water erosion or contamination by other acid or toxic material;

(b) segregate the B horizon of the natural soil, or underlying C horizon or other strata, or a combination of such horizons or other strata that are shown to be both texturally and chemically suitable for plant growth and that can be

HeinOnline -- 1995 vol. II 1783 1995

shown to be equally or more favorable for plant growth than the B horizon in sufficient quantities to create in the regraded final soil a root zone of comparable depth and quality to that which existed in the natural soil; and if not utilized immediately, stockpile this material separately from other spoil and provide needed protection from wind and water erosion or contamination by acid or toxic material;

(c) replace and regrade the root zone material described in subsection (3)(b) with proper compaction and uniform depth over the regraded spoil matorial; and

(d) redistribute and grade in a uniform manner the surface soil horizon described in (a) above.

(4) All available topsoil shall be removed in a separate layer, guarded from erosion and pollution, and kept in such a condition that it can sustain vegetation of at least the quality and variety it sustained prior to removal, provided that the operator shall accord substantially the same treatment to any subsurface deposit of material that is capable, as determined by the department, of supporting surface vegetation virtually as well as the present topsoil. After the operation has been backfilled and graded, the topsoil or the best available subsurface deposit of material which is best able to support vegetation shall be returned as the top layer.

(5) As determined by rules of the board, time limits shall be established requiring backfilling, grading, subsidence stabilization, water control, highwall reduction, topsoiling, planting, and revegetation to be kept current. All backfilling, subsidence stabilization, sealing, grading, and topsoiling shall be completed before necessary equipment is moved from the operation.

(6) (a) The permittee may file a request with the department for the release of all or part of a performance bond or deposit. Within 30 days after any application for bond or deposit release has been filed with the department, the permittee shall submit a copy of an advertisement notice placed at least once a week for 4 successive weeks in a newspaper of general circulation in the locality of the prospecting or mining operation. The notice is considered part of any bond release application and must contain a notification of the precise location of the land affected, the number of acres, the permit and the date approved, the amount of the bond filed and the portion sought to be released, the type and appropriate dates of reclamation work performed, and a description of the results achieved as they relate to the permittee's approved reclamation plan. In addition, as part of any bond release application, the permittee shall submit copies of letters that ~~he~~ *the permittee* has sent to adjoining property owners, local governmental bodies, planning agencies, and sewage and water treatment authorities or water companies in the locality of the operation, notifying them of ~~his~~ *the permittee's* intention to seek release from the bond.

(b) Upon receipt of the request and copies of the notification made under subsection (6)(a), the department shall, within 30 days, conduct an inspection and evaluation of the reclamation work involved. In the evaluation, the department shall consider, among other things, the degree of difficulty in completing any remaining reclamation, whether pollution of surface and subsurface water is occurring, the probability of continuance or future occurrence of such pollution, and the estimated cost of abating such pollution.

HeinOnline -- 1995 vol. II 1784 1995

The department shall notify the permittee in writing of its decision to release or not to release all or part of the performance bond within 60 days of the filing of the request if no public hearing is held pursuant te subsection (6)(f) or, if a public hearing is held pursuant to that subsection, within 30 days thereafter.

(c) The department may release the bond or deposit in whole or in part if it is satisfied the reclamation covered by the bond or deposit or portion thereof has been accomplished as required by this part according te the following schedule:

(i) When the permittee completes the plugging, backfilling, regrading, and drainage control of a bonded area in accordance with ~~his~~ *the* approved reclamation plan, the department shall release 60% of the bond or collateral for the applicable permit area.

(ii) After revegetation has been established on the regraded lands in accordance with the approved reclamation plan, the department shall, for the period specified for operator responsibility of reestablishing revegetation, retain that amount of bond for the revegetated area that would be sufficient for a third party to cover the cost of reestablishing revegetation. Whenever a silt dam is to be retained as a permanent impoundment, the portion of bond may be released under tbis subsection (6)(c)(ii) if provisions for sound future maintenance by the operator or the landowner have been made with the department. No part of the bond or deposit may be released under this subsection (6)(c)(ii):

(A) as long as the lands to which the release would be applicable are contributing suspended solids to streamflow or runoff outside the permit area in excess of the requirements of 82-4-231(10)(k); or

(B) before soil productivity for prime farm lands to which the release would be applicable has returned to equivalent levels of yield as nonmined land of the same soil type in the surrounding area under equivalent management practices, as determined from the soil survey.

(iii) When the permittee has successfully completed all prospecting, mining, and reclamation activities, the department shall release the remaining portion of the bond, but not before the expiration of the period specified for responsibility and not until all reclamation requirements of this part are fully met.

(d) If the department disapproves the application for release of the bond or portion thereof, it shall notify the permittee, in writing, stating the reasons for disapproval and recommending corrective actions necessary to secure the release and allowing opportunity for a public hearing.

(e) When an application for total or partial bond release is filed with the department, it shall notify the municipality in which a prospecting or mining operation is located by certified mail at least 30 days prior to the release of all or a portion of the bond.

(f) Any person with a valid legal interest that might be adversely affected by release of the bond or the responsible officer or head of any federal, state, or local governmental agency which has jurisdiction by law or special expertise with respect to any environmental, social, or economic impact involved in the operation or is authorized to develop and enforce environmental standards with respect to such operations has the right to file written objections to the proposed release from bond to the department within 30 days after the last publication

HeinOnline -- 1995 vol. II 1785 1995

of the notice provided for in subsection (6)(a). If written objections are filed and a hearing requested, the department shall inform all the interested parties of the time and place of the hearing and, within 30 days of the request for such hearing, hold a public hearing in the locality of the operation proposed for bond release. The date, time, and location of the public hearing must be advertised by the department in a newspaper of general circulation in the locality for 2 consecutive weeks, and the hearing must be held in the locality of the operation proposed for bond release or at the state capital, at the option of the objector, within 30 days of the request for such hearing.

(g) Without prejudice to the rights of the objectors or the permittee or the responsibilities of the department pursuant to this section, the department may establish an informal conference to resolve such written objections.

(h) For the purpose of the hearing under subsection (6)(f), the department may administer oaths; subpoena witnesses or written or printed materials; compel the attendance of witnesses or the production of materials; and take evidence, including but not limited to site inspections of the land affected and other operations carried on by the permittee in the general vicinity. A verbatim record of each public hearing required by this section must be made, and a transcript must be made available on the motion of any party or by order of the department.

(7) An operator may propose alternative plans other than backfilling, grading, highwall reduction, tepsoiling, or seeding to a permanent diverse vegetative cover if the restoration will he consistent with the purpose of this part. These plans shall be submitted to the department, and after consultation with the landowner, if the plans are approved by the ~~board~~ *department* and complied with within the time limits as may be determined by the ~~board~~ *department* as being reasonable for carrying out the plans, the backfilling, grading, highwall reduction, topsoiling, or revegetation requirements of this part may be modified by the ~~board~~ *department*. An operator who proposes alternative plans that will affect an existing permit shall comply with the notice requirement of 82-4-222(1)(k).

(8) If alternate revegetation is proposed, a management plan must be submitted showing how the area will be utilized and any data necessary to show that the alternate postmining land use can be achieved. Any plan must require the operation as a minimum to:

(a) restore the land affected to a condition capable of supporting the use which it was capable of supporting prior to any mining operation or to a higher or better use of which there is a reasonable likelihood, if the use or uses do not present any actual or probable threat of water diminution or pollution, and if the permit applicant's proposed land use following reclamation is not deemed to be impractical, unreasonable, or inconsistent with applicable land use policies and plans, would not involve unreasonable delay in implementation, and would not violate federal, state, or local law; and

(b) prevent soil erosion to the extent achieved prior to mining."

Section 375. Section 82-4-239, MCA, is amended to read:

"82-4-239. **Reclamation ~~by board~~.** (1) The ~~board~~ *department* may have reclamation work done by ~~its own~~ *its* employees, ~~or~~ by employees of other governmental agencies, *by* soil conservation districts, or through contracts with qualified persons. The board may construct, operate, and maintain plants for the control and treatment of water pollution resulting from mine drainage.

(2) Any funds or any public works programs available to the ~~board~~ *department* ~~shall~~ *must* be used and expended to reclaim and rehabilitate lands that have been subjected to strip mining or underground mining *and* that have not been reclaimed and rehabilitated in accordance with the standards of this part. The ~~board~~ *department* shall cooperate with federal, state, and private agencies to engage in cooperative projects under this section.

(3) Agents, employees, or contractors of the department may enter upon any land for the purpose of conducting studies or exploratory work to determine whether ~~such~~ *the* land has been strip- or underground-mined and not reclaimed and rehabilitated in accordance with the requirements of this part and to determine the feasibility of restoration, reclamation, abatement, control, or prevention of any adverse effects of past coal-mining practices. Upon request of the ~~commissioner~~ *director of the department*, the attorney general shall bring an injunctive action to restrain any interference with the exercise of the right to enter and inspect granted in this subsection.

(4) *(a)* ~~If the~~ *The* department *shall take the actions described in subsection (4)(b) when it* makes a finding of fact that:

~~(a)~~*(i)* land or water resources have been adversely affected by past coal-mining practices; ~~and~~

~~(b)~~*(ii)* the adverse effects are at a stage ~~where~~ *at which,* in the public interest, action to restore, reclaim, abate, control, or prevent should be taken; and

~~(c)~~*(iii)* the owners of the land or water resources where entry must be made to restore, reclaim, abate, control, or prevent the adverse effects of past coal-mining practices are not known or readily available or the owners will not give permission for the department or its agents, employees, or contractors to enter upon ~~such~~ *the* property to restore, reclaim, abate, control, or prevent the adverse effects of past coal-mining practices~~; then~~.

(b) ~~agents, employees, or contractors of the department, after~~ *After* giving notice by mail to the owner, if known, and any purchaser under contract for deed, if known, or, if neither is known, by posting notice ~~upon~~ *on* the premises and advertising in a newspaper of general circulation in the county in which the land lies, *the agents, employees, or contractors of the department* may enter ~~upon~~ *on the* property adversely affected by past coal-mining practices and *on* any other property necessary for access to ~~such~~ *the* mineral property to do all things necessary or expedient to restore, reclaim, abate, control, or prevent the adverse effects of past coal-mining practices.

(c) ~~This act~~ *Action taken under subsection (4)(b)* is not an act of condemnation of property or of trespass, but rather *is* an exercise of the power granted by sections 1 and 2, Article IX of the Montana constitution.

(5) (a) Within 6 months after the completion of projects to restore, reclaim, abate, control, or prevent adverse effects of past coal-mining practices on privately owned land, the department shall itemize the money ~~so~~ expended and may file a statement ~~thereof~~ *of those expenses* in the office of the clerk and recorder of the county in which the land lies, together with a notarized appraisal by an independent appraiser of the value of the land before the restoration, reclamation, abatement, control, or prevention of adverse effects of past coal-mining practices if the money ~~so~~ expended ~~shall result~~ *resulted* in a significant increase in property value. ~~Such~~ *The* statement constitutes a lien upon the land. The lien may not exceed the amount determined by the appraisal to be the increase in the market value of the land as a result of the restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal-mining practices. ~~No~~ *A* lien *under this subsection* may *not* be filed against the property of ~~any~~ *a* person~~, in accordance with this subsection,~~ who owned the surface prior to May 2, 1977, and who ~~neither consented~~ *did not consent* to, ~~nor participated~~ *participate* in, ~~nor exercised~~ *or exercise* control over the mining operation ~~which~~ *that* necessitatod the reclamation performed under this part.

(b) The landowner may petition within 60 days of the filing of the lien to determine the increase in the market value of the land as a result of the restoration, reclamation, abatoment, control, or prevention of the adverse effects of past coal-mining practices. The amount reported to be the increase in value of the premises constitutes the amount of the lien and ~~shall~~ *must* be recorded with the statement ~~herein~~ provided *for in this section*. Any party aggrieved by the decision may appeal as provided by law.

(c) The lien provided in this section ~~shall~~ *must* be recorded at the office of the county clerk and recorder. The statement constitutes a lien upon the land as of the dato of the expenditure of the money and has priority as a lien second only to the lien of real estate taxes imposed upon the land.

(6) The ~~board~~ *department* may acquire the necessary property by gift or purchase ~~or, if~~. *If* the property cannot be acquired by gift or purchase at a reasonable cost, proceedings may be instituted in the manner provided in Title 70, chapter 30, against all nonaccepting landholders if:

(a) the property is necessary for successful reclamation;

(b) the acquired land after restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal-mining practices will serve recreation and historic purposes or conservation and reclamation purposes or provide open space benefits; and

(c) *(i)* permanent facilities, such as treatment plants or relocated stream channels, will be constructed on the land for the restoration, reclamation, abatement, control, or prevention of the adverse effects of past strip- or underground-coal-mining practices; or

(ii) acquisition of coal refuse disposal sites and all coal refuse ~~thereon~~ *on the land* will serve the purposes of this part ~~in that~~ *because* public ownership is desirable to meet emergency situations and prevent recurrences of the adverse effects of past coal-mining practices."

Section 376. Section 82-4-240, MCA, is amended to read:

"82-4-240. **Reclamation of lands after bond forfeited.** In keeping with the provisions of this part, the ~~board~~ *department* may reclaim any affected lands with respect to which a bond has been forfeited."

"82-4-242. **Funds received by ~~board~~ *department*.** The ~~board~~ *department* may receive any federal funds, state funds, or any other funds for the reclamation of land affected by strip mining or underground mining."

Section 378. Section 82-4-251, MCA, is amended to read:

"82-4-251. **Noncompliance — suspension of permits.** (1) ~~The commissioner or an authorized representative of the department shall, if he determines~~ *If it is determined* on the basis of an inspection that *the permittee is or that* any condition or ~~practices exist or that the permittee is~~ *practice exists* in violation of any requirement of this part or any permit condition required by ~~the~~ *this* part that creates an imminent danger to the health or safety of the public or is causing or can reasonably be expected to cause significant and imminent environmental harm to land, air, or water resources, *the director of the department or an authorized representative shall* immediately order cessation of the operation or the portion ~~thereof~~ *of the operation* relevant to the condition, practice, or violation. The cessation order remains in effect until the ~~commissioner or his~~ *director or an* authorized representative determines that the condition, practice, or violation has been abated or until modified, vacated, or terminated by the ~~commissioner or his~~ *director or an* authorized representative pursuant to subsection (5). If the ~~commissioner or his~~ *director or an* authorized representative finds that the ordered cessation of the operation, or any portion ~~thereof,~~ *of the operation* will not completely abate the imminent danger to the health or safety of the public or the significant and imminent environmental harm to land, air, or water resources, ~~he~~ *the director or the authorized representative* shall, in addition to the cessation order, impose affirmative obligations requiring ~~whatever~~ *any* steps *that* the ~~commissioner or his~~ *director or the* authorized representative considers necessary to abate the imminent danger or the significant environmental harm.

(2) When, on the basis of an inspection, the department determines that any permittee is in violation of any requirement of this part or any permit condition required by this part ~~which~~ *that* does not create an imminent danger to the health or safety of the public or cannot be reasonably expected to cause significant and imminent environmental harm to land, air, or water resources, the ~~commissioner or~~ *director or an* authorized representative shall issue a notice to the permittee or ~~his~~ *the permittee's* agent fixing a reasonable time, not exceeding 90 days, for the abatement of the violation and providing opportunity for public hearing. If, upon expiration of the period of time as originally fixed or subsequently extended, for good cause shown and upon the written finding of the ~~commissioner or his~~ *director or an* authorized representative, the ~~commissioner or his~~ *director or an* authorized representative finds that the violation has not been abated, ~~he~~ *the director or an authorized representative* shall immediately order a cessation of the operation or the portion ~~thereof~~ *of the operation* relevant te the violation. ~~Such~~ *The* cessation order remains in effect until the ~~commissioner or his~~ *director or an* authorized representative determines that the violation has been abated or until modified, vacated, or terminated by the ~~commissioner or his~~ *director or an* authorized representative

pursuant to subsection (5). In the order of cessation issued under this subsection, the ~~commissioner~~ *director* shall determine the steps necessary to abate the violation in the most expeditious manner possible and shall include the necessary measures in the order.

(3) When, on the basis of an inspection, the ~~commissioner or his~~ *director or an* authorized representative determines that a pattern of violations of any requirements of this part or any permit conditions required by this part exists or has existed and if the ~~commissioner or his~~ *director or an* authorized representative also finds that ~~such~~ *the* violations are caused by the unwarranted failure of the permittee to comply with any requirements of this part or any permit conditions or that ~~such~~ *the* violations are willfully caused by the permittee, the ~~commissioner or his~~ *director or an* authorized representative shall ~~forthwith~~ issue an order to the permittee to show cause as to why the permit should not be suspended or revoked and shall provide opportunity for a public hearing. If a hearing is requested, the ~~commissioner~~ *director* shall inform all interested parties of the time and place of the hearing. Upon the permittee's failure to show cause as to why the permit should not be suspended or revoked, the ~~commissioner or his~~ *director or an* authorized representative shall ~~forthwith~~ suspend or ~~the board shall~~ revoke the permit. When a permit has been revoked, the ~~board~~ *department* may order the performance bond forfeited.

(4) Any additional permits held by an operator whose mining permit has been revoked ~~shall~~ *must* be suspended, and the operator is not eligible to receive another permit or to have the suspended permits reinstated until ~~he~~ *the operator* has complied with all the requirements of this part ~~in~~ *with* respect to former permits issued ~~him~~ *to the operator*. An operator who has forfeited a bond is not eligible to receive another permit unless the land for which the bond was forfeited has been reclaimed without cost to the state or the operater has paid into the reclamation account a sum together with the value of the bond the ~~board~~ *department* finds adequate to reclaim the lands.

(5) Notices and orders issued pursuant to this section ~~shall~~ *must* set forth with reasonable specificity the nature of the violation and the remedial action required, the period of time established for abatement, and a reasonable description of the portion of the operation to which the notice or order applies. Each notice or order issued under this section ~~shall~~ *must* be given promptly to the permittee or his *the permittee's* agent by the department, ~~or~~ *by* the ~~commissioner~~*director,* or ~~his~~ *by the* authorized representative who ~~issues~~ *issued* the notice or order. All ~~such~~ notices and orders must be in writing and be signed by the authorized representatives. Any notice or order issued pursuant to this section may be modified, vacated, or terminated by the ~~commissioner or his~~ *director or an* authorized representative~~, provided that~~. *However,* any notice or order issued pursuant to this section that requires cessation of mining by the operator expires within 30 days of actual notice to the operator unless a public hearing is held at the site or within such reasonable proximity to the site that any viewings of the site can be conducted during the course of public hearing.

(6) A person *who has been* issued a notice or an order of cessation pursuant to this section or ~~any~~ *a* person ~~having~~ *who has* an interest that is or may be adversely affected by an order or by modification, vacation, or termination of an order may apply to the department for review of that order witbin 30 days of its issuance or within 30 days of its modification, vacation, or termination. Upon

receipt of the application, the department shall make an investigation. The investigation ~~shall~~ *must* provide an opportunity for public hearing at the request of the applicant or the person ~~having~~ *who has* an interest who is or may be adversely affected to enable the applicant or the person to present information relating to the issuance and continuance of the notice or order or the modification, vacation, or termination of it. The filing of an application for review under this subsection may not operate as a stay of any order or notice. The department shall make findings of fact and issue a written decision incorporating an order vacating, affirming, modifying, or terminating the order.

(a) that person's failure to comply with the provisions of this part, the rules adopted under this part, or a permit or license issued under this part has resulted in the forfeiture of a bond, unless that person meets the conditions described in 82-4-360;

(b) that person has not paid a penalty for which the department has obtained a judgment pursuant to 82-4-361;

HeinOnline -- 1995 vol. II 1797 1995

(c) that person has failed to post a reclamation bond required by 82-4-305, unless the department has certified that the area for which the bond should have been posted has been reclaimed by that person or reclaimed by the department and the person has reimbursed the department for the cost of the reclamation;

(d) that person has failed to comply with an abatement order issued pursuant to 82-4-362, unless the department has completed the abatement and the person has reimbursed the department for the cost of abatement."

Section 388. Section 82-4-332, MCA, is amended to read:

"82-4-332. **Exploration license.** (1) An exploration license shall be issued to any applicant therefor who shall:

(a) pay a fee of $5 to the ~~board~~ *department*;

(b) agree to reclaim any surface area damaged by the applicant during exploration operations, as may be reasonably required by the ~~board~~ *department*;

(c) not be in default of any other reclamation obligation under this law.

(2) An application for an exploration license shall be made in writing, notarized, and submitted to the department in duplicate upon forms prepared and furnished by it. The application shall include an exploration map or sketch in sufficient detail to locate the area to be explored and to determine whether significant environmental problems would be encountered. The ~~department~~ *board* shall by rule determine the precise nature of such exploration map or sketch. The applicant must state what type of prospecting and excavation techniques will be employed in disturbing the land.

(3) Prior to the issuance of an exploration license, the applicant shall file with the department a reclamation and revegetation bond in a form and amount as determined by the department in accordance with 82-4-338.

(4) In the event that the holder of an exploration license desires to mine the area covered by the exploration license and has fulfilled all of the requirements for an operating permit, the department shall allow the postponement of the reclamation of the acreage explored if that acreage is incorporated into the complete reclamation plan submitted with the application for an operating permit. Any land actually affected by exploration or excavation under an exploration license and not covered by the operating reclamation plan shall be reclaimed witbin 2 years after the completion of exploration or abandonment of the site in a manner acceptable te the department."

Section 389. Section 82-4-334, MCA, is amended to read:

"82-4-334. **Exception — geological phenomena.** Upon proper application by the holder of an exploration license, the ~~board~~ *department* may excuse such holder from reclamation obligations with reference to any specified openings or excavations exposing geological indications or phenomena of especial interest, even though the licensee does not apply or have any intention to apply for an operating permit for the land in which such openings or excavations have been made."

Section 390. Section 82-4-335, MCA, is amended to read:

"82-4-335. **Operating permit — limitation — fees.** (1) A person may not engage in mining, ore processing, or reprocessing of tailings or waste material, construct or operate a hard-rock mill, use cyanide ore-processing reagents, or disturb land in anticipation of those activities in the state without first obtaining an operating permit from the ~~board~~ *department*. A separate operating permit is required for each complex.

(2) A small miner who intends to use a cyanide ore-processing reagent shall obtain an operating permit for that part of the small miner's operation where the cyanide ore-processing reagent will be used or disposed of.

(3) Prior to receiving an operating permit from the ~~board~~ *department*, a person shall pay the basic permit fee of $25. The department may require a person who is applying for a permit pursuant to subsection (1) to pay an additional fee not to exceed the actual amount of contractor and employee expenses beyond the normal operating expenses of the department whenever those expenses are reasonably necessary to provide for timely and adequate review of the application, including any environmental review conducted under Title 75, chapter 1, parts 1 and 2. The ~~department~~ *board* may further define these expenses by rule. Whenever the department determines that an additional fee is necessary and the additional fee will exceed $5,000, the department shall notify the applicant that a fee must be paid and submit to the applicant an itemized estimate of the proposed expenses. The department shall provide the applicant an opportunity to review the department's estimated expenses. The applicant may indicate which proposed expenses the applicant considers duplicative or excessive, if any.

(4) The person shall submit an application on a form provided by the ~~board~~ *department*, which must contain the following information and any other pertinent data required by rule:

(f) the names and addresses of the owners of record and any purchasers under contracts for deed of the surface of the land within the permit area and the owners of record and any purchasers under contracts for deed of all surface area within one-half mile of any part of the permit area, provided that the department is not required to verify this information;

HeinOnline -- 1995 vol. II 1799 1995

(g) the names and addresses of the present owners of record and any purchasers under contracts for deed of all minerals in the land within the permit area, provided that the department is not required to verify this information;

(h) the source of the applicant's legal right to mine the mineral on the land affected by the permit, provided that the department is not required to verify this information;

(j) a plan which will provide, within limits of normal operating procedures of the industry, for completion of the operation;

(k) ground water and surface water hydrologic data gathered from a sufficient number of sources and length of time to characterize the hydrologic regime;

(l) a plan detailing the design, operation, and monitoring of impounding structures, including but not limited to tailings impoundments and water reservoirs, sufficient to ensure that the structures are safe and stable;

(m) a plan identifying methods to be used to monitor for the accidental discharge of objectionable materials and remedial action plans to be used to control and mitigate discharges to surface or ground water; and

(n) an evaluation of the expected life of any tailings impoundment or waste area and the potential for expansion of the tailings impoundment or waste site.

(5) Except as provided in subsection (7), the permit provided for in subsection (1) for a large-scale mineral development as defined in 90-6-302 must be conditioned to provide that activities under the permit may not commence until the impact plan is approved under 90-6-307 and until the permittee has provided a written guarantee to the department and to the hard-rock mining impact board of compliance within the time schedule with the commitment made in the approved impact plan, as provided in 90-6-307. If the permittee does not comply with that commitment within the time scheduled, the ~~board~~ *department*, upon receipt of written notice from the hard-rock mining impact board, shall suspend the permit until it receives written notice from the hard-rock mining impact board that the permittee is in compliance.

(6) When the department determines that a permittee has become or will become a large-scale mineral developer pursuant to 82-4-339 and 90-6-302 and provides notice as required under 82-4-339, within 6 months of receiving the notice, the permittee shall provide the ~~board~~ *department* with proof that the permittee has obtained a waiver of the impact plan requirement from the hard-rock mining impact board or that the permittee has filed an impact plan with the hard-rock mining impact board and the appropriate county or counties. If the permittee does not file the required proof or if the hard-rock mining impact board certifies to the ~~board~~ *department* that the permittee has failed to comply with the hard-rock mining impact review and implementation requirements in Title 90, chapter 6, parts 3 and 4, the ~~board~~ *department* shall suspend the permit until the permittee files the required proof or until the hard-rock mining impact board certifies that the permittee has complied with the hard-rock mining impact review and implementation requirements.

(7) Compliance with 90-6-307 is not required for exploration and bulk sampling for metallurgical testing when the aggregate samples are less than 10,000 tons.

(8) A person may not be issued an operating permit if:

(a) that person's failure to comply with the provisions of this part, the rules adopted under this part, or a permit or license issued under this part has resulted in the forfeiture of a bond, unless that person meets the conditions described in 82-4-360;

(b) that person has not paid a penalty for which the department has obtained a judgment pursuant to 82-4-361;

(c) that person has failed to post a reclamation bond required by 82-4-305, unless the department has certified that the area for which the bond should have been posted has been reclaimed by that person or reclaimed by the department and the person has reimbursed the department for the cost of the reclamation;

(d) that person has failed to comply with an abatement order issued pursuant to 82-4-362, unless the department has completed the abatement and the person has reimbursed the department for the cost of abatement.

(9) A person may not be issued a permit under this part unless, at the time of submission of a bond, the person provides the current information required in subsection (4)(a) and:

(a) (i) certifies that the person is not currently in violation in this state of any law, rule, or regulation of this state or of the United States pertaining to air quality, water quality, or mined land reclamation; or

(ii) presents a certification by the administering agency that the violation is in the process of being corrected to the agency's satisfaction or is the subject of a bona fide administrative or judicial appeal; and

Section 391. Section 82-4-336, MCA, is amended to read:

"82-4-336. Reclamation plan and specific reclamation requirements. (1) The reclamation plan shall provide that reclamation activities, particularly those relating to control of erosion, to the extent feasible, shall be conducted simultaneously with the operation and in any case shall be initiated promptly after completion or abandonment of the operation on those portions of the complex that will not be subject te further disturbance. In the absence of an order by the ~~board~~ *department* providing a longer period, the plan shall provide that reclamation activities shall be completed not more than 2 years after completion or abandonment of the operation on that portion of the complex.

(2) In the absence of emergency or suddenly threatened or existing catastrophe, an operator may not depart from an approved plan without

previously obtaining from the department written approval of ~~his~~ *the* proposed change.

(3) Provision shall be made to avoid accumulation of stagnant water in the mined area which may serve as a host or breeding ground for mosquitoes or other disease-bearing or noxious insect life.

(4) All final grading shall be made with nonnoxious, nonflammable, noncombustible solids unless approval has been granted by the ~~board~~ *department* for a supervised sanitary fill.

(5) Where mining has left an open pit exceeding 2 acres of surface area and the composition of the floor or walls of the pit are likely to cause formation of acid, toxic, or otherwise pollutive solutions (hereinafter "objectionable effluents") on exposure to moisture, the reclamation plan shall include provisions which adequately provide for:

(a) insulation of all faces from moisture or water contact by covering to a depth of 2 feet or more with material or fill not susceptible itself to generation of objectionable effluents;

(b) processing of any objectionable effluents in the pit before their being allowed to flow or be pumped out of it to reduce toxic or other objectionable ratios to a level considered safe to humans and the environment by the ~~board~~ *department*;

(c) drainage of any objectionable effluents to settling or treatment basins when the objectionable effluents must be reduced to levels considered safe by the ~~board~~ *department* before release from the settling basin; or

(d) absorption or evaporation of objectionable effluents in the open pit itself; and

(e) prevention of entrance into the open pit by persons or livestock lawfully upon adjacent lands by fencing, warning signs, and such other devices as may reasonably be required by the ~~board~~ *department*.

(6) Provisions for vegetative cover shall be required in the reclamation plan if appropriate to the future use of the land as specified in the reclamation plan. The reestablished vegetative cover shall meet county standards for noxious weed control.

(7) The reclamation plan shall provide for the reclamation of all disturbed land. Proposed reclamation shall provide for the reclamation of disturbed land to comparable utility and stability as that of adjacent areas, except for open pits and rock faces which may not be feasible to reclaim. In such excepted cases, the ~~board~~ *department* shall require sufficient measures to insure public safety and to prevent the pollution of air or water and the degradation of adjacent lands.

(8) A reclamation plan shall be approved by the ~~board~~ *department* if it adequately provides for the accomplishment of the activities specified in this section.

(9) The reclamation plan shall provide for permanent landscaping and contouring to minimize the amount of precipitation that infiltrates into disturbed areas, including but not limited to tailings impoundments and waste

rock dumps. The plan shall also provide measures to prevent objectionable postmining ground water discharges."

Section 392. Section 82-4-337, MCA, is amended to read:

"**82-4-337. Inspection — issuance of operating permit — modification, amendment, or revision.** (1) (a) The ~~board~~ *department* shall cause all applications for operating permits to be reviewed for completeness within 60 days of receipt of the initial application and within 30 days of receipt of responses to notices of deficiencies. The initial completeness notice must note all deficiency issues, and the department may not in a later completeness notice raise an issue pertaining to the initial application that was not raised in the initial notice. The department may, however, raise any deficiency during the adequacy review pursuant to subsection (1)(b). The ~~board~~ *department* shall notify the applicant concerning completeness as soon as possible. An application is considered complete unless the applicant is notified of any deficiencies within the appropriate review period.

(b) Unless the review period is extended as provided in this section, the ~~board~~ *department* shall review the adequacy of the proposed reclamation plan and plan of operation within 30 days of the determination that the application is complete or within 60 days of receipt of the application if the ~~board~~ *department* does not notify the applicant of any deficiencies in the application. If the applicant is not notified of deficiencies or inadequacies in the proposed reclamation plan and plan of operation within the time period, the operating permit must be issued upon receipt of the bond as required in 82-4-338 and pursuant to the requirements of subsection (1)(c). The department shall promptly notify the applicant of the form and amount of bond which will be required.

(c) A permit may not be issued until:

(i) sufficient bond has been submitted pursuant to 82-4-338;

(ii) the information and certification have been submitted pursuant to 82-4-335(9); and

(iii) the department has found that permit issuance is not prohibited by 82-4-335(8) or 82-4-341(6).

(d) (i) Prior to issuance of a permit, the department shall inspect the site unless the department has failed to act on the application within the time prescribed in subsection (1)(b). If the site is not accessible due to extended adverse weather conditions, the department may extend the time period prescribed in subsection (1)(b) hy not more than 180 days to allow inspection of the site and reasonable review. The department shall serve written notice of extension upon the applicant in person or by certified mail, and any extension is subject to appeal to the board in accordance with the Montana Administrative Procedure Act.

(ii) If the department determines that additional time is needed to review the application and reclamation plan for a major operation, the department and the applicant shall negotiate to extend the period prescribed in subsection (1)(b) by not more than 365 days in order to permit reasonable review.

HeinOnline -- 1995 vol. II 1803 1995

(iii) If the department decides to hire a third-party contractor to prepare an environmental impact statement on the application, the department shall prepare a list of no fewer than four contractors acceptable to the department and shall provide the applicant with a copy of the list. The applicant shall provide the department with a list of at least 50% of the contractors from the department's list. The department shall select its contractor from the list provided by the applicant.

(iv) Failure of the ~~board~~ *department* to act upon a complete application within the extension period constitutes approval of the application, and the permit must be issued promptly upon receipt of the bond as required in 82-4-338.

(2) The operating permit must be granted for the period required to completo the operation and is valid until the operation authorized by the permit is completed or abandoned unless the permit is suspended or revoked by the ~~board~~ *department* as provided in this part.

(3) The operating permit must provide that the reclamation plan may be modified by the ~~board~~ *department*, upon proper application of the permittee or ~~department~~, after timely notice and opportunity for hearing, at any time during the term of the permit and for any of the following reasons:

(a) to modify the requirements so they will not conflict with existing laws;

(b) when the previously adopted reclamation plan is impossible or impracticable to implement and maintain;

(c) when significant environmental problem situations are revealed by field inspection.

(4) During the term of an operating permit, an operator may apply for an amendment or revision to the permit. The operator may not apply for an amendment to delete disturbed acreage from the permit.

(5) Applications for major amendments must be processed in the same manner as applications for new permits.

(6) Major amendments are those that may significantly affect the environment. Minor amendments are those that will not significantly affect the environment. The ~~department~~ *board* may by rule establish criteria for classification of amendments as major or minor. The rules must establish requirements for the content of applications for amendments and revisions and procedures for processing of minor amendments.

(7) If the department demonstrates that a revision may result in a significant environmental impact that was not previously and substantially evaluated in an environmental impact statement, the application must be processed in the same manner as is provided for new permits. Applications for minor amendments and other revisions must be processed within 30 days of receipt of an application."

Section 393. Section 82-4-338, MCA, is amended to read:

"**82-4-338. Performance bond.** (1) The applicant shall file with the department a bond payable to the state of Montana with surety satisfactory to the department in the sum to be determined by the department of not less than

$200 or more than $2,500 for each acre or fraction of an acre of the disturbed area, conditioned upon the faithful performance of the requirements of this part, the rules of the board, and the permit. In lieu of a bond, the applicant may file with the board a cash deposit, an assignment of a certificate of deposit, or other surety acceptable to the ~~board~~ *department*. Regardless of the limits in this subsection, the bond may not be less than the estimated cost te the state to ensure compliance with this part, the rules, and the permit. A public or governmental agency may not be required te post a bond under the provisions of this part. A blanket performance bond covering two or more operations may be accepted by the board. A blanket bond must adequately secure the estimated total number of acres of disturbed land.

(2) The department shall review the amount of each bond at least every 5 years and shall consult with the licensee or permittee if the review indicates that the bond level should be adjusted. When determined by the department that the set bonding level of a permit or license does not represent the present costs of compliance with this part, the rules, and the permit, the department may modify the bonding requirements of that permit or license. The department shall make written findings, give the licensee or permittee a copy of the findings, and, for operating permits, publish notice of the findings in a newspaper of general circulation in the county in which tbe operation is located. The permittee or any person with an interest that may be adversely affected may obtain a contested case hearing under the provisions of the Montana Administrative Procedure Act on the adjusted bond level by filing with the department within 30 days of the notice a written request for hearing.

(3) A bond filed in accordance with the provisions of this part may not be released by the department until the provisions of this part, the rules adopted pursuant to this part, and the permit have been fulfilled.

(4) A bond filed for an operating permit obtained under 82-4-335 may not be released until the public has been provided an opportunity for a hearing."

Section 394. Section 82-4-339, MCA, is amended to read:

"**82-4-339. Annual report of activities by permittee — fee — notice of large-scale mineral developer status.** (1) Within 30 days after completion or abandonment of operations on an area under permit or within 30 days after each anniversary date of the permit, whichever is earlier, or at such later date as may be provided by rules of the board and each year thereafter until reclamation is completed and approved, the permittee shall pay the annual fee of $25 and sball file a report of activities completed during the preceding year on a form prescribed by the ~~board~~ *department* which report shall:

(a) identify the permittee and the permit number;

(b) locate the operation by subdivision, section, township, and range and with relation to the nearest town or otlier well-known geographic feature;

(c) estimate acreage to be newly disturbed by operation in the next 12-month period;

(d) include the number of persons on the payroll for the previous permit year and for the next permit year at intervals that the department considers sufficient te enable a determination of the permittee's status under 90-6-302(4);

(e) update the information required in 82-4-335(4)(a); and

(f) update any maps previously submitted or specifically requested by the ~~board~~ *department*. Such maps shall show:

(i) the permit area;

(ii) the unit of disturbed land;

(iii) the area to he disturbed during the next 12-month period;

(iv) if completed, the date of completion of operations;

(v) if not completed, the additional area estimated to be further disturbed by the operation within the following permit year; and

(vi) the date of beginning, amount, and current status of reclamation performed during the previous 12 months.

(2) Whenever the department determines that the permittee has become or will, during the next permit year, become a large-scale mineral developer, it shall immediately serve written notice of that fact on the permittee, the hard-rock mining impact board, and the county or counties in which the operation is located."

Section 395. Section 82-4-340, MCA, is amended to read:

"**82-4-340. Successor operator.** When one operator succeeds to the interest of another in any uncompleted operation by sale, assignment, lease, or otherwise, the ~~board~~ *department* may release the first operater from the duties imposed upon ~~him~~ *the operator* by this part as to such operation, provided that both operators have complied with the requirements of this part and the successor operator assumes the duty of the former operator to complete the reclamation of the land, in which case the ~~board~~ *department* shall transfer the permit to the successor operator upon approval of the successor operator's hond as required under this part."

Section 396. Section 82-4-341, MCA, is amended to read:

"**82-4-341. Compliance with reclamation plan — reclamation by board.** (1) Following receipt of the permittee's report and at any other reasonable time the board may elect, the ~~board~~ *department* shall cause the permit area to be inspected to determine if the permittee has complied with the reclamation plan and the board's rules.

(2) The permittee shall proceed with reclamation as scheduled in ~~his~~ *the* approved reclamation plan. Following written notice by the ~~board~~ *department* noting deficiencies, the permittee shall commence action within 30 days to rectify these deficiencies and shall diligently proceed until the deficiencies are corrected, provided that deficiencies that also violate other laws that require earlier rectification shall be corrected in accordance with the applicable time provisions of such laws. The ~~board~~ *department* may extend performance periods referred to in this section and in 82-4-336 for delays clearly beyond the permittee's control, but only when the permittee is, in the opinion of the ~~board~~ *department*, making every reasonable effort to comply.

(3) Within 30 days after notification by the permittee and when, in the judgment of the ~~board~~ *department*, reclamation of a unit of disturbed land area is properly completed, the permittee shall be notified in writing and ~~his~~ *the* bond on said area shall be released or decreased proportionately to the acreage included within the bond coverage.

(4) If reclamation of disturbed land is not pursued in accordance with the reclamation plan and the permittoe has not commenced action to rectify deficiencies within 30 days after notification by the ~~board~~ *department* or if reclamation is not properly completod in conformance with the reclamation plan within 2 years after completion or abandonment of operation on any fraction of the permit area or such longer period as may have been authorized hereunder or if, after default by the permittee, the surety either refuses or fails to perform the work to the satisfaction of the ~~board~~ *department* within the time required therefor, the ~~board~~ *department* may, with the staff, equipment, and material under its control or by contract with others, take such actions as are necessary for required reclamation of the disturbed lands. Such work shall be let on the basis of competitive bidding. The ~~board~~ *department* shall keep a record of all necessary expenses incurred in carrying out the work or activity authorized under this section, including a reasonable charge for the services performed by the state's personnel and the state's equipment and materials utilized.

(5) The ~~board~~ *department* shall notify the permittee and ~~his~~ *the permittee's* surety by order. The order shall state the amount of necessary expenses incurred by the ~~board~~ *department* in reclaiming the disturbed land and a notice that the amount is due and payable to the board by the permittee and the surety. If the amount specified in the order is not paid within 30 days after receipt of the notice, the attorney general, upon request of the ~~board~~ *department*, shall bring an action on behalf of the state in district court. The surety shall be liable to the state te the extent of the bond. The permittee shall be liable for the remainder of the cost.

(6) In addition to the other liabilities imposed by this part, failure to commence action to remedy specific deficiencies in reclamation within 30 days after notification by the ~~board~~ *department* or failure to satisfactorily complete reclamation work on any segment of the permit area within 2 years, or such longer period as the ~~board~~ *department* may permit on permittoe's application therefor or on the ~~board's~~ *department's* own motion, after completion or abandonment of operations on any segment of the permit area shall constitute sufficient grounds for cancellation of a permit or license and refusal to issue another permit or license to the applicant; provided, however, that such action shall not be effected while an appeal is pending from any ruling requiring the same."

Section 397. Section 82-4-342, MCA, is amended te read:

"**82-4-342. Amendment to operating permits.** (1) During the term of an operating permit issued under this part, an operator may apply for an amendment to the permit. The operator may not apply for an amendment to delete disturbed acreage except following reclamation, as required under 82-4-336, and bond release for the disturbance, as required under 82-4-338.

(2) The ~~department~~ *board* may by rule establish criteria for the classification of amendments as major or minor. The ~~department~~ *board* shall adopt rules

HeinOnline -- 1995 vol. II 1807 1995

establishing requirements for the content of applications for major and minor amendments and the procedures for processing minor amendments.

(3) Applications for major amendments must be processed pursuant to 82-4-337.

(4) The department shall review an application for a minor amendment and provide a notice of decision on the adequacy of the application within 30 days. If the department does not respond within 30 days, then the permit is revised in accordance with the application.

(5) The department is not required to prepare an environmental assessment or an environmental impact statement for the following categories of action:

(a) actions that qualify for a categorical exclusion as defined by rule or justified by a programmatic review pursuant to Title 75, chapter 1;

(b) administrative actions, such as routine, clerical, or similar functions of a department, including but not limited to administrative procurement, contracts for consulting services, and personnel actions;

(c) repair or maintenance of the permittee's equipment or facilities;

(d) investigation and enforcement actions, such as data collection, inspection of facilities, or enforcement of environmental standards;

(e) ministerial actions, such as actions in which the agency does not exercise discretion, but acts upon a given stato of facts in a prescribed manner;

(f) approval of actions that are primarily social or economic in nature and that do not otherwise affect the human environment;

(g) changes in a permit boundary that increase disturbed acres that are insignificant in impact relative te the entire operation, provided that the increase is less than 10 acres or 5% of the permitted area, whichever is less; and

(h) changes in an approved operating plan or reclamation plan for an activity that was previously permitted, provided that the impacts of the change will be insignificant relative to the impacts of the entire operation and there is less than 10 acres of additional disturbance."

Section 398. Section 82-4-349, MCA, is amended to read:

"**82-4-349. Limitations of actions.** Legal actions seeking review of a ~~board~~ *department* decision granting or denying an exploration license or operating permit issued under this part must be filed within 90 days after the decision is made."

Section 399. Section 82-4-352, MCA, is amended to read:

"**82-4-352. Reapplication with new reclamation plan.** A permit may be denied and returned to the applicant with a request that the application be resubmitted with a different plan for reclamation. The person making application for a permit may then resubmit to the ~~board~~ *department* a new plan for reclamation."

Section 400. Section 82-4-360, MCA, is amended to read:

"82-4-360. **Activity prohibited if bond forfeited — exception.** (1) Except as provided in subsection (2), a person may not conduct mining or exploration activities in this state if that person or any firm or business association of which that person was a principal or controlling member had a bond forfeited under this part.

(2) A person described in subsection (1) may apply for an operations permit or an exploration license or may conclude a written agreement under 82-4-305 if that person first pays to the department:

(a) the full amount of the necessary expenses incurred by the ~~board~~ *department* under 82-4-341(5) for reclamation of the area for which the bond was forfeited;

(b) the full amount of any penalties assessed under this part; and

(c) interest on these amounts and penalties incurred at the rate of 6% per year."

Section 401. Section 82-4-362, MCA, is amended to read:

"82-4-362. **Suspension of permits — hearing.** (1) If any of the requirements of this part, the rules adopted under this part, or a license, permit, or reclamation plan has not been complied with, the department shall serve a notice of noncompliance on the licensee or permittee or, if necessary, the ~~commissioner~~ *director* shall order the suspension of the permit. The ~~commissioner~~ *director* may order immediate suspension of a permit whenever the ~~commissioner~~ *director* makes a finding that a violation of this part, the rules adopted under this part, or a license or permit, including the reclamation plan, is creating an imminent danger to the health or safety of persons outside the permit area. The notice or order must be handed to the licensee or permittee in person or served by certified mail addressed to the permanent address shown on the application for a license or permit. The notice of noncompliance or order of suspension must specify in what respects the operator has failed to comply with this part, the rules adopted under this part, the permit, or the reclamation plan and must, if the violation has not been abated, order abatement within a specified time period.

(2) If the licensee or permittee has not complied with the requirements set forth in the notice of noncompliance or order of suspension within the time limits set in the notice or order, the permit may be revoked by order of the ~~board~~ *department* and the performance bond forfeited to the department. The bond shall be in an amount not to exceed the costs of restoration required by this part as determined by the ~~board~~ *department*. The amount of the bond may not be less than $200 or more than $1,000 per acre unless the department determines, in writing, that the cost of restoration of the land exceeds $1,000 per acre. Upon such a determination, the bond amount must be set by the ~~board~~ *department* at the cost of restoring the land.

(2) In lieu of the bond, the operator may deposit with the board cash, government securities, a letter of credit in a form acceptable to the department ~~of state lands~~, or a bond with property sureties in an amount equal to that of the required bond on conditions as above prescribed. In the discretion of the board, surety bond requirements may be fulfilled by the operator's posting a bond with land and improvements and facilities thereon as security, in which event no surety may be required. The penalty of the bond or amount of cash and securities shall be increased or reduced from time to time as provided in this part. The bond or security remains in effect until the affected land has been reclaimed as provided under the contract and the reclamation has been approved and the bond or security has been released by the board. The bond or

security shall cover only actual affected land and may be increased or reduced to cover only such acreages as remain unreclaimed.

(3) If the license of a surety upon a bond filed with the ~~board~~ *department* pursuant to this part is suspended or revoked, the operator, within 30 days after receiving notice thereof from the board, shall substitute for that surety a good and sufficient surety licensed to do business in the state. (5) Whenever an operator has completed all of the requirements under the provisions of this part as to any affected land, ~~he~~ *the operator* shall notify the ~~board~~ *department* thereof. If the board releases the operator from further obligation regarding such affected land, the penalty of the bond shall be reduced proportionately."

Section 413. Section 82-4-434, MCA, is amended to read:

"**82-4-434. Reclamation plan part of contract — requirements.** The contract must meet the following requirements:

(1) The operator shall submit a reclamation plan to the ~~board~~ *department* before commencing any opencut mining and may not commence mining before the plan receives approval from the ~~board~~ *department*. The operator may request and receive a meeting with the ~~board~~ *department* prior to submission of the plan. If the ~~board~~ *department* does not notify the operator that it has approved or disapproved a plan within 30 days after the ~~board~~ *department* has received the plan, the ~~board~~ *department* is considered to have approved the plan. The ~~board~~ *department*, however, for sufficient cause, may extend its period of consideration for an additional 30 days if it notifies the operator prior to the end of the original 30-day period. The ~~board~~ *department* shall submit each reclamation plan or amendments to the reclamation plan to the landowner for ~~his~~ recommendations and shall consider those recommendations in deciding whether to approve or disapprove any plan or amendments. The ~~board~~ *department* may seek technical help from any state or federal agency. The board shall submit the plan immediately to the director of the university of Montana statewide archaeological survey for evaluation of possible archaeological or historical values in the area to be mined. The ~~board~~ *department* may approve a reclamation plan only if the ~~board~~ *department* has found that the plan provides for the best possible reclamation procedures available under the circumstances at the time, so that after mining operations are completed, the affected land will be reclaimed to a productive use. Once the reclamation plan is accepted in writing by the ~~board~~ *department*, it must become a part of the contract but is subject to annual review and modification by the ~~board~~ *department*.

(2) The ~~board~~ *department* may not approve any reclamation plan unless the plan provides:

(a) that the land will be reclaimed for one or more specified uses, including but not limited to forest, pasture, orchard, cropland, residence, recreation, industry, and habitat for wildlife, including food, cover, or wator, or other uses;

(b) that to the extent reasonable and practicable, the operator will establish vegetative cover commensurate with the proposed land use;

(c) whenever operations result in a need to prevent acid drainage or sedimentation on or in adjoining lands or streams, for the construction of earth dams or other reasonable devices to control water drainage, provided the formation of the impoundments or devices will not interfere with other landowners' rights or contribute to water pollution;

(d) that to accomplish practical utilization of soil materials, the matorial will be utilized for placement on affected areas, if required by the reclamation plan after completion or termination of that particular phase of the mining operations, at a depth sufficient for plant growth on slopes of 3:1 or less;

(e) that grading will be commensurate with the topography sought and land use designated;

(f) that metal and other waste will be removed or buried;

(g) that all access, haul, and other support roads will be located, constructed, and maintained in such a manner as to control and minimize channeling and other erosion;

(h) that the operator will submit a progress report annually to the ~~board~~ *department*;

(i) that all operations will be conducted to avoid range and forest fires and spontaneous combustion and that open burning of carbonaceous materials will be in accordance with suitable practices for fire prevention and control;

(j) that archaeological and historical values in areas to be mined will be given appropriato protection;

(k) that except for rock faces, bench faces, and excavations used for water impoundments, each surface area of the mined premises that will be disturbed will be revegetated when its use for extractive purposes is no longer required;

(l) that seeding and planting will be done in a manner to achieve a permanent suitable vegetative cover for wildlife, livestock, and retardation of erosion and that all seed will be drilled unless otherwise provided in the plan;

(m) that reclamation will be as concurrent with mining operations as feasible and will be completed within a specified length of time; and

(n) that surface water and ground water will be given appropriato protection, consistent with state law, from deterioration of water quality and quantity that may arise as a result of the operation.

(3) If reclamation according to the plan has not been completed in the time specified, the ~~board~~ *department* after 30 days' written notice shall order the operator to cease mining and, if the operator does not cease, shall institute an

action to enjoin further operation and may sue for damages for breach of contract, for payment of the performance bond, or for both.

(4) (a) At any time during the period of reclamation, the operator may for good reason submit to the ~~board~~ *department* a new reclamation plan or amendments to the existing plan, including extensions of time.

(b) The ~~board~~ *department* may approve the proposed new reclamation plan or amendments to the existing plan if:

(i) the operator has in good faith carried on reclamation according to the existing plan and the proposed new plan or amendments to the existing plan will result in reclamation as or more desirable than the reclamation proposed under the existing plan; or

(ii) it is highly improbable reclamation will be successful unless the existing plan is replaced or amended.

(c) When accepted, the proposed new reclamation plan or the proposed amendments to the existing plan become a part of the contract.

(5) The operator shall provide a performance bond or an alternative acceptable to the ~~board~~ *department* in an amount commensurato with the estimated cost of reclamation, but in no case may the bond be less than $200 per acre. The estimated cost of reclamation must be set forth in the reclamation plan.

(6) The contract, reclamation plan, and amendments accepted by the ~~board~~ *department* are a public record and are open to inspection.

(7) The contract is effective when signed by the ~~board~~ *department* and the operator and remains in force until terminated by mutual consent or by the ~~board~~ *department* upon 6 months' notice."

The board shall adopt rules to implement and administer a procedure for waiver of a penalty under this subsection.

(3) The department ~~of state lands~~ shall notify the person or operator of the violation. The person or operator is entitled, by filing a written request within 20 days of receipt of the notice of violation, to a hearing on the issues of whether the alleged violation has occurred and whether the penalty proposed to be imposed is proper. The department shall issue a statement of proposed penalty no more than 10 days after notice of violation. After the hearing or after the time for requesting a hearing has expired, the board shall make findings of fact, issue a written decision as to the occurrence of the violation and the amount of penalty warranted, and order the payment of a penalty in that amount. The person or operator shall remit the amount of the penalty within 30 days of the order. If the person or operator wishes to obtain judicial review of the assessment, ~~he~~ *the person or operator* shall submit with the penalty a statement that the penalty is being paid under protest and the department shall hold the payment in escrow until judicial review is complete. A person or operator who fails to request and submit testimony at the hearing provided for in this subsection or who fails to pay the assessed penalty under protest within 30 days of the order assessing the penalty forfeits ~~his~~ *the* right to seek judicial review of the violation or penalty determinations. These penalties are recoverable in an action brought by the department in the district court of the first judicial district of this state, in and for the county of Lewis and Clark, or *in* the district court of the county in which the opencut mine is located.

(4) The department may bring an action to enjoin an operator or other person violating or threatening to violate this part, rules adopted pursuant to this part, or a contract made pursuant to this part in the district court of the first judicial district of this state, in and for the county of Lewis and Clark, or *in* the district court of the county in which the opencut mine is locatod."

Section 416. Section 85-1-201, MCA, is amended to read:

"85-1-201. Rules ~~of board~~. The ~~board~~ *department* may adopt from time to time, as necessary or expedient, suitable rules for the administration of this chapter."

Section 417. Section 85-1-203, MCA, is amended to read:

"85-1-203. State water plan. (1) The department shall gather from any source reliable information relating to Montana's water resources and prepare from the information a continuing comprehensive inventory of the water resources of the state. In preparing this inventory, the department may conduct studies; adopt studies made by other competent water resource groups, including federal, regional, state, or private agencies; perform research or employ other competent agencies to perform research on a contract basis; and hold public hearings in affected areas at which all interested parties must be given an opportunity to appear.

(2) The department shall formulate and~~, with the approval of the board,~~ adopt and amend, extend, or add to a comprehensive, coordinated multiple-use water resources plan known as the "state water plan". The state water plan may be formulated and adopted in sections, these sections corresponding with hydrologic divisions of the state. The state water plan must set out a progressive program for the conservation, development, and utilization of the state's water resources and propose the most effective means by which these water resources may be applied for the benefit of the people, with due consideration of alternative uses and combinations of uses. Before adopting the state water plan or any section of the plan, the department shall hold public hearings in the state or in an area of the state encompassed by a section of the plan if adoption of a section is proposed. Notice of the hearing or hearings must be published for 2 consecutive weeks in a newspaper of general county circulation in each county encompassed by the proposed plan or section of the plan at least 30 days prior to the hearing.

(3) The department shall submit to the water policy committee established in 85-2-105 and to the legislature at the beginning of each regular session the state water plan or any section of the plan or amendments, additions, or revisions to the plan that the department has formulated and adopted.

(4) The legislature, by joint resolution, may revise the state water plan.

(5) The department shall prepare a continuing inventory of the ground water resources of the state. The ground water inventory must be included in the comprehensive water resources inventory described in subsection (1) but must be a separate component of the inventory.

(6) The department shall publish the comprehensive inventory, the state water plan, the ground water inventory, or any part of each, and the department may assess and collect a reasonable charge for these publications.

(7) In developing and revising the state water plan as provided in this section, the department shall consult with the water policy committee established in 85-2-105 and solicit the advice of the committee in carrying out its duties under this section."

Section 418. Section 85-1-204, MCA, is amended to read:

HeinOnline -- 1995 vol. II 1822 1995

"85-1-204. Department powers over state waters. (1) The department, ~~with the approval of the board,~~ may sell, lease, and otherwise dispose of all waters ~~which~~ *that* may be impounded under this chapter, and the water may be sold for the purpose of irrigation, development of power, watering of stock, or any other purpose. The department, ~~with the approval of the board,~~ may also lease water under the state water leasing program established under the provisions of 85-2-141. To the extent that it may be necessary to carry out this chapter and subject to a compliance with the other provisions of this chapter, the department has full control of all the water of the state not under the exclusive control of the United States and not vested in private ownership, and it shall take such steps as may be necessary to appropriate and conserve the ~~same~~ *water* for the use of the people. The authority of the department conferred by this chapter extends and applies to rights to the natural flow of the waters of this state ~~which~~ *that* it may acquire, ~~with the approval of the board,~~ by condemnation, purchase, exchange, appropriation, or agreement.

(2) For the purpose of regulating the diversion of those waters, the department may enter upon the means and place of use of all appropriators for making surveys of respective rights and seasonal needs.

(3) The department may take into consideration the decrees of the courts of this state having jurisdiction ~~which~~ *that* purport to adjudicate the waters of a stream or its tributaries, and a fair, reasonable, and equitable reconciliation ~~shall~~ *must* be made between the claimants asserting rights under different decrees and between decreed rights and asserted rights of appropriation not adjudicated by any court.

(4) The department, at its discretion, may hold hearings relating to the rights of respective claimants after first giving ~~such~~ notice ~~as~~ *that* it considers appropriate and make findings of the date and quantity of appropriation and use of all claimants ~~which~~ *that* the department will recognize and observe in diverting the waters ~~which~~ *that* it owns. The department may police and distribute to the owner of the recognized appropriation the waters due ~~him~~ *to the owner* upon request and under terms agreed upon.

(5) The department, when engaged in controlling and dividing the natural flow of a stream under the authority granted by this chapter, is exercising a police power of the state, and water commissioners appointed by any court may not deprive the department of any of the waters owned or administered under agreement with respective owners. The owner of a prior right contending that the department is not recognizing and respecting the appropriation may resort to a court for the purpose of determining whether or not the rights of the claimant have been invaded, and the department shall observe the terms of the final decree.

(6) When the department impounds or acquires the right of appropriation of the waters of a stream, it may divert or authorize the diversion at any point on the stream or any portion ~~thereof~~ *of the stream* when it is done without injury to a prior appropriator."

Section 419. Section 85-1-206, MCA, is amended to read:

"85-1-206. Construction of works by department. (1) ~~Subject to the approval of the board, the~~ *The* department may construct works, the cost of the

construction to be paid wholly by means of or with the proceeds of revenue bonds ~~hereinafter authorized~~ or of a grant or loan to aid in financing the construction from the United States or any instrumentality or agency ~~thereof~~ *of the United States* and other funds provided for the construction. Before constructing a project, the department shall estimate the cost of the project, the cost of operation and maintenance, and the revenues to be derived ~~therefrom~~ *from the project*. A project may not be constructed unless, according to the estimates, the revenues to be derived will be sufficient to pay the cost of operation and maintenance and the principal and interest of loans or revenue bonds ~~which~~ *that* may be issued for the cost of the project~~; however~~. *However*, in connection with the issuance of revenue bonds, the failure of the department to make the estimates required by this section or to make them in proper form does not affect the validity or enforceability of those bonds or of the trust indenture, resolution, or other security ~~therefor~~.

(2) ~~Should~~ *If* the bid of the lowest responsible bidder on any capital improvement associated with public works ~~exceed~~ *exceeds* the department estimates of the cost of the improvements by more than 5%, the department shall obtain approval from the water user association, whenever an association is involved, before the bid is accepted~~; however~~. *However*, capital improvements of an emergency nature necessary to protect life or property or to supply immediate needs for water do not require ~~such~~ approval.

(3) A purpose of this chapter is to meet, so far as possible, a statewide need for the conservation and use of water through the construction and operation of projects designed for those purposes. The projects to be finally constructed ~~shall~~ *must* qualify as parts of the statewide program and ~~shall~~ *must* be approved by the ~~board~~ *department* upon the showing of their prospective ability to meet, through the sale of water or other services, the cost of operation and maintenance and the principal and interest of loans and revenue bonds issued to finance the construction. The failure of the ~~board~~ *department* to determine the prospective ability of a project does not affect the validity or enforceability of the bonds or of the trust indenture, resolution, or other security ~~therefor~~."

Section 420. Section 85-1-209, MCA, is amended to read:

"**85-1-209. Title to property purchased or condemned ~~shall~~ *must* be taken in the name of the department. The department is under no obligation to accept and pay for any property condemned under this chapter except from the funds provided by this chapter. In any proceedings to condemn, orders may be made by the court having jurisdiction of the suit, action, or proceeding as may be warranted by law and the facts.

(2) In *a* condemnation proceeding brought under the powers of eminent domain for the purpose of carrying out this chapter, all persons interested in the title of or holding liens upon the property sought to be acquired, as disclosed by the public records, ~~shall~~ *must* be made parties~~,~~ and the court in the action shall partition and distribute the damages awarded, if any, among those persons

as their rights appear. If there is controversy between them, the court may direct the amount of the damage awarded to be paid into court to abide the result of further appropriate proceedings either at law or in equity.

(3) The taking possession of the property sought to be condemned may not be delayed by reason of any dispute between the rival claimants or the failure to join any of them as a party to the proceedings in condemnation.

(4) If water rights are acquired or exercised by the department in connection with two or more works or projects, the department by order shall apportion or allocate to each of the works or projects ~~such~~ *the* part of those water rights as it may determine. Upon the adoption of the order, those water rights ~~shall~~ *must* be considered a part of each of the works or projects to the extent that the water rights have been so apportioned or allocated ~~thereto~~ *to the works or projects* respectively."

Section 421. Section 85-1-210, MCA, is amended to read:

"**85-1-210. The department~~, with the approval of the board,~~ may sell or otherwise dispose of a water project, after the discharge of all of the bonds issued to finance the construction or acquisition ~~thereof~~ *of the project*, if any, and of all interest ~~thereon~~ *on the bonds* and costs and expenses incurred in connection with any action or proceeding by or on behalf of the holders of the bonds. The department shall make a determination of the market value of the water project prior to its sale or other disposition. The department's determination of market value shall consider all liens, encumbrances, and other limitations on the water project."

Section 422. Section 85-1-211, MCA, is amended to read:

"**85-1-211. Management of property — water contracts.** (1) Subject to this chapter, the department may fix and establish the prices, rates, and charges at which the resources and facilities made available under this chapter may be sold and disposed of and enter into contracts and agreements and do those things that in its judgment are necessary, convenient, or expedient for the accomplishment of the purposes and objects of this chapter, under general rules and upon terms, limitations, and conditions as it prescribes.

(2) The department shall enter into the contracts and fix and establish the prices, rates, and charges so as to provide at all times funds that will be sufficient to pay all costs of operation and maintenance of the works authorized by this chapter, together with necessary repairs to the works, and that will provide at all times sufficient funds to meet and pay the principal and interest of all bonds or loans as they severally become due and payable.

(4) A contract made by the department for the sale of water, use of water, water storage, or other service or for the sale of property or facilities must provide that, in the event of a failure or default in the payment of money specified in the contract to be paid to the department, the department may, upon notice as is prescribed in the contract, terminate the contract and all obligations under the contract. The act of the department in ceasing on default to furnish or deliver water, use of water, water storage, or other service under the contract does not deprive the department of or limit a remedy provided by the contract or by law for the recovery of money due or that may become due under the contract.

(5) ~~Subject to the approval of the board under 85-1-202, the~~ *The* department may sell, transfer to water user associations, abandon, or otherwise dispose of any rights-of-way, easements, properties, or interests or lease or rent the ~~same~~ *property* or otherwise take and receive the income or profit and revenue ~~therefrom~~ *from property* without regard to other laws providing for the disposition of state property. Prior to the department's sale, transfer, or other disposition, a determination must be made by the department as to the market value of the rights-of-way, easements, properties, or interests to be sold, transferred, abandoned, or otherwise disposed of. The department's determination of market value must consider all liens, encumbrances, and other limitations on the project properties or interests.

If there is an existing water users' association on the canal project, the provisions of 85-6-109(5) must be complied with in the disposal of the canal project. The department shall give preference to existing water users' associations operating and maintaining the canal project.

HeinOnline -- 1995 vol. II 1826 1995

(c) Upon the sale or transfer of a canal project, the department shall either cancel or write off from the accounts receivable carried on the books of the department a sum not to exceed any previous 1-year cost of operating and maintaining the canal project or make a payment not to exceed any previous 1-year cost of operating and maintaining the canal project. For a canal project not disposed of by June 30, 1995, the water users of the canal project are responsible for the department's administrative costs and the actual costs of operation and maintenance of the canal project.

(7) An employee or agent of the department authorized by the director may enter upon any land to carry out tbe purposes of this section, including but not limited to entry to make an inspection tbe department considers necessary of the canal project, entry to salvage or remove project property, and entry to make physical alterations to canal project property. (c) Tiber, Canyon Ferry, Hungry Horse, or Yellowtail ~~Reservoirs~~ *reservoir* if and ~~for so~~ *as* long as there is an agreement between the department and the federal government concerning the acquisition of water and sharing of ~~revenues~~ *revenue* with the state from one or more of these reservoirs; and

(d) any other existing or future federal reservoir:

(i) located in a basin concerning which a temporary preliminary decree, a preliminary decree under 85-2-231, or a final decree under 85-2-234 has been entered; and

(ii) for which and for so long as there is an agreement between the department and the federal government concerning the acquisition of water and the sharing of ~~revenues~~ *revenue* with the state.

(4) Water may be leased for any beneficial use. The amount of water that can be leased under this program for all beneficial uses ~~shall~~ *may* not exceed 50,000 acre-feet.

(5) The term of any lease may not exceed 50 years. A term may be extended up to another 50 years if the department again determines the desirability of leasing by applying the considerations ~~set forth~~ in subsection (7). In making ~~such~~ a redetermination, the department may require the completion of an environmental impact statement in accordance with subsection (6).

(6) The department shall require the completion of an environmental impact statement under the provisions of Title 75, chapter 1, for lease applications that would result in the consumption of 4,000 acre-feet a year or more and 5.5 cubic feet per second or more of water and for any other application for which an environmental impact statement is required by law. The department shall require the completion of an environmental impaet statement whenever the cumulative effect of more than one application for a lease would constitute a probable significant environmental impact.

(7) Upon application by ~~any~~ *a* person to lease water, the department shall make an initial determination of whether it is desirable for the department to lease water to the applicant. ~~Such a~~ *The* determination of desirability ~~shall~~ *must* be made solely on the following considerations:

(b) whether there is sufficient water available under the water leasing program; and

(c) whether the criteria, except as to legislative approval, set forth in 85-2-311 have been satisfied.

(8) The department shall for any agreement require commercially reasonable terms and conditions, which may include the requirement that up to 25% of the water to be leased be made available to a potential user for any beneficial use upon payment by ~~such~~ *the* user of the costs of tapping into and removing water from the applicant's project. The department may differentiate in pricing, depending on the proposed beneficial use of the water.

(9) The lease of water or the use of water under a lease does not constitute a permit, as provided in 85-2-102, and does not establish a right to appropriate water within the meaning of Title 85, chapter 2, part 3.

(10) For purposes of the water leasing program established in this section, it is the intent of the legislature that the state act as a proprietor."

Section 446. Section 85-2-304, MCA, is amended to read:

"**85-2-304. Appropriation by state board of land commissioners.** The state board of land commissioners may, through the department ~~of natural resources and conservation~~, at its discretion, appropriate any available waters for use upon state lands and authorize the construction of irrigation works for these lands. The appropriation ~~shall~~ *must* be made in the same way and under the same laws as those governing the appropriation of water by individuals."

Section 447. Section 85-2-306, MCA, is amended to read:

"**85-2-306. Exceptions to permit requirements.** (1) Ground water may be appropriated only by a person who has a possessory interest in the property where the water is to be put to beneficial use and exclusive property rights in the ground water development works or, if another person has rights in the ground water development works, *with* the written consent of the person with those property rights. Outside the boundaries of a controlled ground water area, a permit is not required before appropriating ground water by means of a well or developed spring with a maximum appropriation of 35 gallons per minute or less, not to exceed 10 acre-feet per year, except that a combined appropriation from the same source from two or more wells or developed springs exceeding this limitation requires a permit. Within 60 days of completion of the well or developed spring and appropriation of the ground water for beneficial use, the appropriator shall file a notice of completion with the department on a form provided by the department at its offices and at the offices of the county clerk and recorders. Upon receipt of the notice, the department shall review the notice and may, before issuing a certificate of water right, return a defective notice for correction or completion, together with the reasons for returning it. A notice does not lose priority of filing because of defects if the notice is corrected, completed, and refiled with the department within 30 days or within a further time as the department may allow, not to exceed 6 months. If a notice is not corrected and completed within the time allowed, the priority date of appropriation is the date of refiling a correct and complete notice with the department. A certificate of water right may not be issued until a correct and

complete notice has been filed with the department. The original of the certificate must be sent to the appropriator. The department shall keep a copy of the certificate in its office in Helena. The date of filing of the notice of completion is the date of priority of the right.

(2) An appropriator of ground water by means of a well or developed spring first put to beneficial use between January 1, 1962, and July 1, 1973, who did not file a notice of completion, as required by laws in force prior to April 14, 1981, with the county clerk and recorder shall file a notice of completion, as provided in subsection (1), with the department te perfect the water right. The filing of a claim pursuant to 85-2-221 is sufficient notice of completion under this subsection. The priority date of the appropriation is the date of the filing of a notice as provided in subsection (1) of this section or the date of the filing of the claim of existing water right. An appropriation under this subsection is an existing right, and a permit is not required; however, the department shall acknowledge the receipt of a correct and complete filing of a notice of completion, except that for an appropriation of 35 gallons per minute or less, not to exceed 10 acre-feet per year, the department shall issue a certificato of water right. If a certificate is issued under this section, a certificate need not be issued under the adjudication proceedings provided for in 85-2-236.

(3) A permit is not required before constructing an impoundment or pit and appropriating water for use by livestock if the maximum capacity of the impoundment or pit is less than 15 acre-feet and the appropriation is less than 30 acre-feet per year and is from a source other than a perennial flowing stream and the impoundment or pit is to be constructed on and will be accessible to a parcel of land that is owned or under the control of the applicant and that is 40 acres or larger. As used in this subsection, a "perennial flowing stream" means a stream that historically has flowed continuously during all seasons of the year, during dry as well as wet years. However, within 60 days after constructing the impoundment or pit, the appropriator shall apply for a permit as prescribed by this part. Upon receipt of a correct and complete application for a stockwater provisional permit, the department shall then automatically issue a provisional permit. If the department determines after a hearing that the rights of other appropriators have been or will be adversely affected, it may revoke the permit or require the permittee to modify the impoundment or pit and may then make the permit subject to ~~such~~ terms, conditions, restrictions, or limitations *that* it considers necessary to protect the rights of other appropriators.

(4) A person may also appropriate water without applying for or prior to receiving a permit under rules adopted by the ~~board~~ *department* under 85-2-113."

Section 448. Section 85-2-311, MCA, is amended to read:

"**85-2-311. Criteria for issuance of permit.** (1) Except as provided in subsections (3) and (4), the department shall issue a permit if the applicant proves by a preponderance of evidence that the following criteria are met:

(a) there are unappropriated waters in the source of supply at the proposed point of diversion:

(i) at times when the water can be put to the use proposed by the applicant;

(ii) in the amount *that* the applicant seeks to appropriate; and

(iii) during the period in which the applicant seeks to appropriate, *in* the amount requested *and that* is reasonably available;

(h) the water rights of a prior appropriator will not be adversely affected;

(c) the proposed means of diversion, construction, and operation of the appropriation works are adequate;

(d) the proposed use of water is a beneficial use;

(e) the proposed use will not interfere unreasonahly with other planned uses or developments for which a permit has been issued or for which water has heen reserved;

(f) the applicant has a possessory interest, or the written consent of the person with the possessory interest, in the property where the water is to be put to beneficial use;

(g) the water quality of a prior appropriator will not be adversely affected;

(h) the proposed use will be substantially in accordance with the classification of water set for the source of supply pursuant to 75-5-301(1); and

(i) the ability of a discharge permitholder to satisfy effluent limitations of a permit issued in accordance with Title 75, chapter 5, part 4, will not be adversely affected.

(2) The applicant is required to prove that the criteria in subsections (1)(g) through (1)(i) have been met only if a valid objection is filed. A valid objection must contain substantial credible information estahlishing to the satisfaction of the department that the criteria in subsection (1)(g), (1)(h), or (1)(i), as applicable, may not be met. For the criteria set forth in subsection (1)(h), only the department of ~~health and~~ environmental ~~sciences~~ *quality* or a local water quality district established under Title 7, chapter 13, part 45, may file a valid objection.

(3) The department may not issue a permit for an appropriation of 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water unless the applicant proves by clear and convincing evidence that:

(a) the criteria in subsection (1) are met;

(b) the rights of a prior appropriator will not be adversely affected;

(c) the proposed appropriation is a reasonable use. A finding must he hased on a consideration of the following:

(i) the existing demands on the state water supply, as well as projected demands, such as reservations of water for future beneficial purposes, including municipal water supplies, irrigation systems, and minimum streamflows for the protection of existing water rights and aquatic life;

(ii) the benefits to the applicant and the state;

(iii) the effects on the quantity and quality of water for existing beneficial uses in the source of supply;

(iv) the availability and feasibility of using low-quality water for the purpose for which application has been made;

(v) the effects on private property rights by any creation of or contribution to saline seep; and

(vi) the probable significant adverse environmental impacts of the proposed use of water as determined by the department pursuant to Title 75, chapter 1, or Title 75, chapter 20.

(4) (a) The state of Montana has long recognized the importance of conserving its public waters and the necessity te maintain adequate water supplies for the state's water requirements, including requirements for reserved water rights held by the United States for federal reserved lands and in trust for the various Indian tribes within the state's boundaries. Although the state of Montana also recognizes that, under appropriate conditions, the out-of-state transportation and use of its public waters are not in conflict with the public welfare of its citizens or the conservation of its waters, the criteria in this subsection (4) must be met before out-of-state use may occur.

(b) The department may not issue a permit for the appropriation of water for withdrawal and transportation for use outside the state unless the applicant proves by clear and convincing evidence that:

(i) depending on the volume of water diverted or consumed, the applicable criteria and procedures of subsection (1) or (3) are met;

(ii) the proposed out-of-state use of water is not contrary to water conservation in Montana; and

(iii) the proposed out-of-state use of water is not otherwise detrimental te the public welfare of the citizens of Montana.

(c) In determining wbether the applicant has proved by clear and convincing evidence that the requirements of subsections (4)(b)(ii) and (4)(b)(iii) are met, the department shall consider the following factors:

(i) whether there are present or projected water shortages within the state of Montana;

(ii) whetber the water that is the subject of the application could feasibly be transported to alleviate water shortages witbin the state of Montana;

(iii) the supply and sources of water available to the applicant in the state where the applicant intends to use the water; and

(iv) the demands placed on the applicant's supply in the state where the applicant intends to use the water.

(d) When applying for a permit or a lease to witbdraw and transport water for use outside the state, the applicant shall submit to and comply with the laws of the state of Montana governing the appropriation, lease, and use of water.

HeinOnline -- 1995 vol. II 1845 1995

(5) To meet the preponderance of evidence standard in this section, the applicant, in addition to other evidence demonstrating that the criteria of subsection (1) have been met, shall submit hydrologic or other evidence, including but not limited to water supply data, field reports, and other information developed by the applicant, the department, the U.S. geological survey, or the U.S. ~~soil~~ *natural resources* conservation service and other specific field studies.

(6) An appropriation, diversion, impoundment, use, restraint, or attemptod appropriation, diversion, impoundment, use, or restraint contrary to the provisions of this section is invalid. An officer, agent, agency, or employee of the state may not knowingly permit, aid, or assist in any manner an unauthorized appropriation, diversion, impoundment, use, or other restraint. A person or corporation may not, directly or indirectly, personally or through an agent, officer, or employee, attempt to appropriate, divert, impound, use, or otherwise restrain or control waters within the boundaries of this state except in accordance with this section.

(7) The department may adopt rules to implement the provisions of this section."

(2) (a) Water may be reserved for existing or future beneficial uses in the basin where it is reserved, as described by the following basins:

(i) the Clark Fork River and its tributaries to its confluence with Lake Pend Oreille in Idaho;

(v) the Missouri River and its tributaries to its confluence with the Yellowstone River in North Dakota; and

(vi) the Yellowstone River and its tributaries to its confluence with the Missouri River in North Dakota.

(b) A water reservation may be made for an existing or future heneficial use outside the basin where the diversion occurs only if stored water is not reasonably available for water leasing under 85-2-141 and the proposed use would occur in a basin designated in subsection (2)(a).

HeinOnline -- 1995 vol. II 1846 1995

(3) Upon receiving a correct and complete application, the department shall proceed in accordance with 85-2-307 through 85-2-309. After the hearing provided *for* in 85-2-309, the ~~board~~ *department* shall decide whether to reserve the water for the applicant. The department's costs of giving notice, holding the hearing, conducting investigations, and making records incurred in acting upon the application to reserve water, except the cost of salaries of the department's personnel, must be paid by the applicant. In addition, a reasonablo proportion of the department's cost of preparing an environmental impact statement must be paid by the applicant unless waived by the department upon a showing of good cause by the applicant.

(4) (a) The ~~board~~ *department* may not adopt an order reserving water unless the applicant establishes to the satisfaction of the ~~board~~ *department* by a preponderance of evidence:

(i) the purpose of the reservation;

(ii) the need for the reservation;

(iii) the amount of water necessary for the purpose of the reservation;

(iv) that the reservation is in the public interest.

(b) In determining the public interest under subsection (4)(a)(iv), the ~~board~~ *department* may not adopt an order reserving water for withdrawal and transport for use outside the state unless the applicant proves by clear and convincing evidence that:

(i) the proposed out-of-state use of water is not contrary to water conservation in Montana; and

(ii) the proposed out-of-state use of water is not otherwise detrimental te the public welfare of the citizens of Montana.

(c) In determining whether the applicant has proved by clear and convincing evidence that the requirements of subsections (4)(b)(i) and (4)(b)(ii) are met, the ~~board~~ *department* shall consider the following factors:

(i) whether there are present or projected water shortages within the state of Montana;

(ii) whether the water that is the subject of the application could feasibly be transported to alleviate water shortages within the state of Montana:

(iii) the supply and sources of water available to the applicant in the state where the applicant intends to use the water; and

(iv) the demands placed on the applicant's supply in the state where the applicant intends to use the water.

(d) When applying for a reservation to withdraw and transport water for use outside the state, the applicant shall submit to and comply with the laws of the state of Montana governing the appropriation, lease, use, and reservation of water.

HeinOnline -- 1995 vol. II 1847 1995

(5) If the purpose of the reservation requires construction of a storage or diversion facility, the applicant shall establish to the satisfaction of the ~~board~~ *department* by a preponderance of evidence that there will be progress toward completion of the facility and accomplishment of the purpose with reasonable diligence in accordance with an established plan.

(6) The ~~board~~ *department* shall limit any reservations after May 9, 1979, for maintenance of minimum flow, level, or quality of wator that it awards at any point on a stream or river to a maximum of 50% of the average annual flow of record on gauged streams. Ungauged streams can be allocated at the discretion of the ~~board~~ *department*.

(7) After the adoption of an order reserving waters, the department may reject an application and refuse a permit for the appropriation of reserved waters or may~~, with the approval of the board,~~ issue the permit subject to terms and conditions *that* it considers necessary for the protection of the objectives of the reservation.

(8) (a) ~~Any~~ *A* person desiring to use water reserved to a conservation district for agricultural purposes shall make application for the use with the district, and the district, upon approval of the application, shall inform the department of the approved use and issue the applicant an authorization for the use. The department shall maintain records of all uses of water reserved to conservation districts and be responsible, when requested by the districts, for rendering technical and administrative assistance within the department's staffing and budgeting limitations in the preparation and processing of ~~such~~ *the* applications for the conservation districts. The department shall, within its staffing and budgeting limitations, complete any feasibility study requested by the districts within 12 months of the time *that* the request was made. The ~~board~~ *department* shall extend the time allowed to develop a plan identifying projects for ~~utilizing~~ *using* a district's reservation ~~so~~ *as* long as the conservation district makes a good faith effort, within its staffing and budget limitations, to develop a plan.

(b) Upon actual application of water to the proposed beneficial use, the authorized user shall notify the conservation district. The notification must contain a certified statement by a person with experience in the design, construction, or operation of project works for agricultural purposes describing how the reserved water was put to use. The department or the district may then inspect the appropriation to determine if it has been completed in substantial accordance with the authorization.

(9) Except as provided in 85-2-331, the priority of appropriation of a water reservation and the relative priority of the reservation to permits with a later priority of appropriation must be determined according to this subsection (9)~~:~~, *as follows:*

(a) A reservation under this section bas a priority of appropriation dating from the filing with the department of a notice of intention to apply for a water reservation in a basin in which no other notice of intention to apply is currently pending. The notice of intention to apply must specify the basin in which the applicant is seeking a reservation.

(b) Upon receiving a notice of intention to apply for a water reservation, the department shall identify all potential water reservation applicants in the basin

specified in the notice and notify each potential applicant of the opportunity to submit an application and to receive a reservation with the priority of appropriation as described in subsection (9)(a).

(c) To receive the priority of appropriation described in subsection (9)(a), the applicant sball submit a correct and complete water reservation application within 1 year after tbe filing of the notice of intention to apply. Upon a showing of good cause, tbe ~~board~~ *department* may extend the time for preparing the application.

(d) The ~~board~~ *department* may by order subordinate a water reservation to a permit issued pursuant to this part if:

(i) the permit application was accepted by the department before the date of the ~~board~~ order granting the reservation; and

(ii) tbe effect of subordinating the reservation to one or more permits does not interfere substantially with the purpose of the reservation.

(e) The ~~board~~ *department* shall by order establish the relative priority of reservations approved under this section that bave the same day of priority. A reservation may not adversely affect any rights in existence at that time.

(10) The ~~board~~ *department* shall, periodically but at least once every 10 years, review existing reservations to ensure that the objectives of the reservation are being met. ~~Where~~ *When* the objectives of the reservation are not being met, the ~~board~~ *department* may extend, revoke, or modify the reservation. Any undeveloped water made available as a result of a revocation or modification under this subsection is available for appropriation by others pursuant to this part.

(11) The ~~board~~ *department* may modify an existing or future order originally adopted to reserve water for the purpose of maintaining minimum flow, level, or quality of water, so as to reallocate the reservation or portion of the reservation to an applicant who is a qualified reservant under this section. Reallocation of reserved water may be made by the ~~board~~ *department* following notice and hearing ~~wherein~~ *if* the ~~board~~ *department* finds that all or part of the reservation is not required for its purpose and tbat the need for the reallocation has been shown by the applicant to outweigh the need shown by the original reservant. Reallocation of reserved water may not adversely affect the priority date of the reservation, and tbe reservation ~~shall retain~~ *retains* ite priority date despite reallocation to a different entity for a different use. The ~~board~~ *department* may not reallocate water reserved under this section on any stream or river more frequently than once every 5 years.

(12) A reservant may not make a change in a reservation under this section, except as permitted under 85-2-402 and this subsection. If the department approves a change, ~~the board, upon notification by~~ the department ~~of its approval,~~ shall give notice and require the reservant to establish that tbe criteria in subsection (4) will be met under the approved change.

(13) A reservation may be transferred to another entity qualified to hold a reservation under subsection (1). Only the entity holding the reservation may initiate a transfer. The transfer occurs upon the filing of a water right transfer certificate with tbe ~~board~~ *department*, together with an affidavit from the entity

HeinOnline -- 1995 vol. II 1849 1995

receiving the reservation establishing that the entity is a qualified reservant under subsection (1), that the entity agrees to comply with the requirements of this section and the conditions of the reservation, and that the entity can meet the objectives of the reservation as granted. If the transfer of a reservation involves a change in an appropriation right, the necessary approvals must be acquired pursuant to subsection (12).

(14) Nothing in this section vests the ~~board~~ *department* with the authority to alter a water right that is not a reservation.

(15) The department shall undertake a program to educate the puhlic, other state agencies, and political subdivisions of the state as to the benefits of the reservation process and the procedures to be followed to secure the reservation of water. The department shall provide technical assistance to other state agencies and political subdivisions in applying for reservations under this section.

(16) Water reserved under this section is not subject to the state water leasing program established under 85-2-141."

Section 450. Section 85-2-319, MCA, is amended te read:

(a) provides the following data for each designated stream reach and each pilot lease entered into under subsection (2):

(i) the length of the stream reach and how it is determined;

(ii) technical methods and data used to determine critical streamflow or volume needed to preserve fisheries;

(iii) legal standards and technical data used to determine and substantiate the amount of water available for instream flows through leasing of existing rights;

(iv) contractual parameters, conditions, and other steps taken to ensure that each lease in no way harms other appropriators, particularly if the stream is one that experiences natural dewatering; and

(v) methods and technical means used to monitor use of water under each lease;

(b) based on the data provided under subsection (1)(a), develops a complete model of a water lease and lease authorization that includes a step-by-step explanation of the process from initiation to completion.

(2) For purposes of undertaking the study described in subsection (1) and as authorized by law, the department of fish, wildlife, and parks and the department may engage in the activities described in this subsection. For purposes of this study, this section is the exclusive means by which the department of fish, wildlife, and parks may seek to change an appropriation right to an instream flow purpose.

(a) The department of fish, wildlife, and parks, with the consent of the commission, may lease existing rights for the purpose of maintaining or enhancing streamflows for the benefit of fisheries in stream reaches determined eligible by the ~~board~~ *department* pursuant to 85-2-437.

(b) Upon receipt of a correct and complete application for a lease from the department of fish, wildlife, and parks, the department shall publish notice of the application as provided in 85-2-307. Parties who believe *that* they may be adversely affected by the proposed lease may file an objection as provided in 85-2-308. A lease may not be approved until all objections are resolved. After resolving all objections filed under 85-2-308, the department shall authorize a lease of an existing right for the purpose of maintaining or enhancing streamflows for the benefit of fisheries if the applicant submits a correct and complete application and meets the requirements of 85-2-402.

HeinOnline -- 1995 vol. II 1854 1995

(c) The application for a lease authorization must include specific information on the length and location of the stream reach in which the streamflow must be maintained or enhanced and must provide a detailed streamflow measuring plan that describes the points where and the manner in which the streamflow must be measured.

(d) The maximum quantity of water that may be leased is the amount historically diverted by the lessor. However, only the amount historically consumed, or a smaller amount if specified by the department in the lease authorization, may be used to maintain or enhance streamflows below the lessor's point of diversion.

(e) The lease may not be issued for a term of more than 10 years, but it may be renewed once for up to 10 years, except that a lease of water made available from the development of a wator conservation or storage project is restricted to a term of not more than 20 years. Upon receiving notice of a lease renewal, the department shall notify other appropriators potentially affected by the lease and shall allow 30 days for submission of new evidence of adverse effects to other water rights. A lease authorization is not required for a renewal unless an appropriator other than an appropriator described in subsection (2)(i) submits evidence of adverse effects to the appropriator's rights that has not been considered previously. If new evidence is submitted, a lease authorization must be obtained according to the requirements of 85-2-402.

(f) During the term of the lease, the department may modify or revoke the lease authorization if an appropriator other than an appropriator described in subsection (2)(i) proves by a preponderance of evidence that the appropriator's water right is adversely affectod.

(g) The priority of appropriation for a lease under this section is the same as the priority of appropriation of the right that is leased.

(h) Neither a change in appropriation right nor any other authorization is required for the reversion of the appropriation right to the lessor's previous use.

(i) A person issued a water use permit with a priority of appropriation after the date of filing of an application for a lease authorization under this section may not object to the exercise of the lease according to its terms or the reversion of the appropriation right to the lessor according to the lessor's previous use.

(j) The department of fish, wildlife, and parks shall pay all costs associatod with installing devices or providing personnel to measure streamflows according to the measuring plan submitted under this section.

MONTANA INSURANCE CODE; REQUIRING CERTAIN DISCLOSURES IN INSURANCE POLICIES ISSUED BY SELF-FUNDED MULTIPLE EMPLOYER WELFARE ARRANGEMENTS; AND AMENDING SECTION 33-1-1111, MCA.

STATEMENT OF INTENT

A statement of intent is provided for this bill because [section 8] requires the commissioner of insurance to adopt rules regarding supervision, rehabilitation, and liquidation of self-funded multiple employer welfare arrangements that fail to meet the minimum level of reserves required by [section 8]. The rules adopted by the commissioner to implement [section 8] should be consistent with Title 33, chapter 2, part 13, and should change the application of those provisions only to the extent necessary to be consistent with the purposes of this bill.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short Title. [Sections 1 through 15] may be cited as the "Self-Funded Multiple Employer Welfare Arrangement Regulation Act".

Section 2. Purpose. The purposes of [sections 1 through 15] are to:

(1) provide for the authorization and registration of self-funded multiple employer welfare arrangements;

(2) regulate self-funded multiple employer welfare arrangements in order to ensure the financial integrity of the arrangements;

(3) provide reporting requirements for self-funded multiple employer welfare arrangements; and

(4) provide for sanctions against self-funded multiple employer welfare arrangements organized and maintained in Montana that do not comply with [sections 1 through 15].

Section 3. Definitions. As used in [sections 1 through 15], unless a contrary intent appears, the following definitions apply:

(1) "Allowable benefit" means a benefit relating to medical, surgical, or hospital care in the event of sickness, accident, disability, or any combination of sickness, accident, or disability.

(2) (a) "Bona fide association" means an association of employers that has been in existence for a period of not less than 5 years prior to sponsoring a self-funded multiple employer welfare arrangement, during which time the association has engaged in substantial activities relating to the common interests of member employers, and that continues to engage in substantial activities in addition to sponsoring an arrangement.

(b) Notwithstanding subsection (2)(a), an association that was formed and began sponsoring an arrangement prior to [the effective date of sections 1 through 15] is not subject to the requirement that the association be in existence for 5 years prior to sponsoring an arrangement.

(3) "Claims liability" means the total of all incurred and unpaid claims for allowable benefits under a self-funded multiple employer welfare arrangement

that are not reimbursed or reimbursable by excess loss insurance, subrogation, or other sources.

(4) "Multiple employer welfare arrangement" means a multiple employer welfare arrangement as defined by 29 U.S.C. 1002. The term does not include an arrangement, plan, program, or interlocal agreement of or between political subdivisions of this state, including school districts, as provided in 33-1-102.

(5) "Reserves" means the excess of the assets of a self-funded multiple employer welfare arrangement minus the liabilities of the arrangement. The liabilities of a self-funded multiple employer welfare arrangement include the claims liability of the arrangement.

(6) "Self-funded multiple employer welfare arrangement" or "arrangement" means a multiple employer welfare arrangement that does not provide for payment of benefits under the arrangement solely through a policy or policies of insurance issued by one or more insurance companies licensed under this title.

Section 4. Certificate of authority. (1) Except as provided in subsection (3), a person may not establish or maintain a self-funded multiple employer welfare arrangement in Montana unless the arrangement first obtains a certificate of authority from the commissioner.

(2) A self-funded multiple employer welfare arrangement is considered to be established or maintained in Montana if one or more of the employer members participating in the arrangement is either domiciled in or maintains its principal place of business in Montana.

(3) A self-funded multiple employer welfare arrangement established and maintained in Montana prior to January 1, 1995, has until [6 months following the effective date of sections 1 through 15] to file an application for a certificate of authority. An arrangement that files an application for a certificate of authority by that date is considered to have been issued a certificate of authority unless the commissioner finally denies the arrangement's application for a certificate of authority.

Section 5. Eligibility for certificate of authority. The commissioner may not issue a certificate of authority to a self-funded multiple employer welfare arrangement unless the arrangement establishes to the reasonable satisfaction of the commissioner that the following requirements have been satisfied by the arrangement:

(1) the employers participating in the self-funded multiple employer welfare arrangement are either engaged in the same trade, profession, or industry or the employers participating in the arrangement are members of a bona fide association;

(2) the employers participating in the arrangement exercise control over the arrangement, as follows:

(a) Subject to subsection (2)(b), control exists if the employers participating in the arrangement have the right to elect at least 75% of the individuals designated in the arrangement's organizational documents as having control over the operations of the arrangement and the individuals designated in the

arrangement's organizational documents in fact exercise control over the operation of the arrangement.

(b) The use of a third-party administrator to process claims and to assist in the administration of the arrangement is not evidence of the lack of exercise of control over the operation of the arrangement.

(3) the arrangement provides only allowable benefits. However, an arrangement may provide life insurance coverage to its participants if the coverage is provided pursuant to contracts of insurance that comply with Title 33, chapter 20, parts 10 through 12.

(4) the arrangement provides allowable benefits to not less than 2 employers and not less than 75 employees;

(5) the arrangement may not solicit participation in the arrangement from the general public. However, the arrangement may employ or independently contract with a licensed insurance producer who may be paid a commission or other remuneration to enroll employers in the arrangement, and employees of the arrangement, employees of the association sponsoring the arrangement, or employees of affiliates of the association, other than licensed insurance producers, may enroll employers in the arrangement if the employees do not receive a commission or other remuneration in addition to their customary compensation for enrolling employers.

(6) the arrangement is not organized or maintained solely as a conduit for the collection of premiums and the forwarding of premiums to an insurance company. However, it is permissible for a self-funded multiple employer welfare arrangement to act as a conduit for the collection and forwarding of premiums for life insurance coverage pursuant to subsection (3).

Section 6. Requirements applicable only to arrangements organized after [the effective date of sections 1 through 15]. (1) In addition to the requirements of [section 5], self-funded multiple employer welfare arrangements formed after [the effective date of sections 1 through 15] are subject to the following requirements:

(a) arrangements shall maintain a calendar year for operations and reporting purposes unless the commissioner consents to a fiscal year;

(b) arrangements shall satisfy one of the following requirements:

(i) (A) the arrangement shall deposit $200,000 with the commissioner pursuant to Title 33, chapter 2, part 6, to be used for the payment of claims in the event that the arrangement becomes insolvent; and

(B) the arrangement shall submit to the commissioner a written plan of operation that, in the reasonable discretion of the commissioner, ensures the financial integrity of the arrangement; or

(ii) the arrangement demonstrates to the reasonable satisfaction of the commissioner the ability of the arrangement to remain financially solvent, for which purpose the commissioner may consider:

(A) the pro forma financial statements of the self-funded multiple employer welfare arrangement;

HeinOnline -- 1995 vol. II 1882 1995

(B) the types and levels of excess loss insurance coverage, including the attachment points of the coverage and whether the points are reflected as annual or monthly levels;

(C) whether a deposit is required for each employee covered under the arrangement equal to at least one month's cost of providing benefits under the arrangement;

(D) the experience of the individuals who will be involved in the management of the arrangement, including employees, independent contractors, and consultants; and

(E) other factors as reasonably determined by the commissioner to be relevant to a determination of whether the arrangement is able to operate in a financially solvent manner.

(2) Financial information relating to the employers is subject to the confidentiality provisions of 33-1-409(6).

(3) The commissioner may require that the articles, bylaws, agreements, trusts, or other documents or instruments describing the rights and obligations of the employers, employees, and beneficiaries of the arrangement provide that employers participating in the arrangement are subject to pro rata assessment for all liabilities of the arrangement.

(4) Arrangements shall maintain excess loss insurance coverage covering 100% of claims in excess of the designated attachment point. The commissioner may waive the requirement of excess loss insurance coverage.

(5) An arrangement shall submit its base contribution rates for participation under the arrangement for its initial year of operations for review and approval by the commissioner.

(6) The commissioner may require continued compliance with respect to the conditions set forth in this section as a condition of granting a certificate of authority to an arrangement. The commissioner may waive continued compliance with respect to the conditions in this section at any time after the commissioner has granted a certificate of authority to an arrangement.

Section 7. Application for certificate of authority. A self-funded multiple employer welfare arrangement shall apply for a certificate of authority on a form prescribed by the commissioner and shall submit the application, together with the following documents, to the commissioner:

(1) a copy of all articles, bylaws, agreements, trusts, or other documents or instruments describing the rights and obligations of the employers, employees, and beneficiaries of the arrangement;

(2) a copy of the summary plan description or summary plan descriptions of the arrangement filed or required to be filed with the United States department of labor, together with any amendments to the description;

(3) evidence of coverage of or letters of intent to participate executed by at least 2 employers providing allowable benefits to at least 75 employees;

HeinOnline -- 1995 vol. II 1883 1995

(4) a copy of the arrangement's most recent year's financial statements or, if the arrangement has been in existence for less than 1 year, pro forma financial statements that must include, at a minimum, a balance sheet, an income statement, a statement of changes in financial position, and an actuarial opinion that the unpaid claim liability of the arrangement satisfies the standards of 33-2-514. The commissioner may, in the commissioner's discretion, waive the requirement of an actuarial opinion and require a report by an actuarial firm.

(5) proof that the arrangement maintains or will maintain fidelity bonds required by the United States department of labor pursuant to the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1001, et seq.;

(6) a copy of any excess loss insurance coverage policies maintained or proposed to be maintained by the arrangement;

(7) biographical reports on forms prescribed by the national association of insurance commissioners evidencing the general trustworthiness and competence of each individual who is serving or who will serve as an employee or fiduciary of the arrangement; and

(8) a statement executed by a representative of the arrangement certifying, to the best knowledge and belief of the representative, that:

(a) the arrangement is in compliance with requirements of [section 5];

(b) the arrangement is in compliance with the requirements of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1001, et seq., or a statement of any requirements with which the arrangement is not in compliance and a statement of proposed corrective actions; and

(c) the arrangement is in compliance with requirements of [sections 8 and 9].

Section 8. Minimum reserve requirements. Self-funded multiple employer welfare arrangements shall establish by the end of the first year of operations of the arrangement and shall maintain as of the end of each year of operations reserves equal to at least 30% of the unpaid claims liability of the arrangement. The commissioner may adopt rules regarding the supervision, rehabilitation, and liquidation of self-funded multiple employer welfare arrangements that fail to maintain the level of reserves required by this section.

Section 9. Minimum funding levels. A self-funded multiple employer welfare arrangement shall establish and maintain contribution rates for participation under the arrangement that satisfy either of the following requirements:

(1) contribution rates must equal or exceed the sum of projected claims liability for the year, plus all projected costs of operation of the arrangement for the year, plus an amount equal to any deficiency in the reserves of the arrangement for the prior year, minus an amount equal to the reserves of the arrangement in excess of the minimum required level of reserves; or

(2) contribution rates must equal or exceed a funding level established by a report prepared by an actuarial firm.

HeinOnline -- 1995 vol. II 1884 1995

Section 10. Issuance of certificate of authority. (1) The commissioner shall grant or deny an application for a certificate of authority within 180 days of the date that a completed application, together with the items designated in [section 7], is submitted te the commissioner.

(2) The commissioner shall grant the application of an arrangement that satisfies the applicable requirements of [sections 5 through 9].

(c) a statement of its contribution rates for the ensuing year;

(d) a statement of operations for the previous year;

(e) if the total payments to the arrangement for participation during the prior year of operations exceeded the sum of $2 million, an audit satisfying the requirements of the commissioner's rules governing annual audited reports, certified by an independent certified public accountant. [SB 395]

AN ACT REVISING THE LAWS GOVERNING THE BOARD OF NURSING; AUTHORIZING THE BOARD OF NURSING TO GIVE TEMPORARY APPROVAL TO PRACTICE IN A FIELD OF ADVANCED PRACTICE REGISTERED NURSING TO A PERSON WHO HAS COMPLETED THE ADVANCED PRACTICE REGISTERED NURSING EDUCATION REQUIRED IN ORDER TO APPLY TO TAKE THE PERSON'S FIRST NATIONAL CERTIFICATION EXAMINATION; PROVIDING RULEMAKING AUTHORITY FOR TEMPORARY APPROVAL TO PRACTICE; AMENDING SECTIONS 37-8-202 AND 37-8-409, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

STATEMENT OF INTENT

A statement of intent is required for this bill because it grants rulemaking authority to the board of nursing to give temporary approval and to establish requirements for temporary approval to practice in a field of advanced practice registered nursing. The legislature finds that it is in the public interest to give temporary approval to practice to a person who has completed the advanced practice registered nursing education required in order for the person to apply to take a national certification examination. In order to protect the public, the board of nursing is authorized to make rules regarding the procedures for obtaining temporary approval to practice in each field of advanced practice registered nursing and for the supervision of the nurse. Because the practices of nurse practitioners, nurse-midwives, nurse anesthetists, and clinical nurse specialists are unique, the board may adopt separate requirements for each specialty as necessary and shall consult with practitioners in each field in the development of the rules.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 37-8-202, MCA, is amended to read:

"**37-8-202. Organization — meetings — powers and duties.** (1) The board shall meet annually and shall elect from among the nine members a president and a secretary. The board shall hold other meetings when necessary to transact its business. A majority of the board constitutes a quorum at any meeting. The department shall keep completo minutes and records of the meetings and rules and orders promulgated by the board.

STATEMENT OF INTENT

A statement of intent is necessary for this bill because, although the bill deletes numerous grants of rulemaking authority in numerous sections of Title 37, the bill contains a single section allowing professional and occupational licensing boards to adopt rules. The purpose of replacing the numerous rulemaking authority grants with a single grant, as is the purpose with the rest of the bill, is to standardize the law in an attempt to reduce the number of rules and reduce variations in the rules from occupation to occupation.

The legislature takes note of the large number of hills proposed by and affecting professional and occupational licensing boards in Montana. A uniform licensing and disciplinary process needs to be established to permit the department of commerce and administratively attached licensing boards to administer the professional and occupational regulatory programs in a manner that is responsive to the public's needs. The public interest will be served by establishing uniform administrative provisions for these regulated professions and occupations that are designed to reduce the number of statutes and rules and variations in statutes and rules between professions or occupations and to promote public awareness of and access to the regulation of professions and occupations. It is the intent of the legislature to strengthen and consolidate disciplinary and licensure procedures for the licensed professions and occupations by providing a uniform disciplinary, licensing, and regulatory act, with standardized procedures for regulation, the purpose of which is to assure the public of the adequacy of competence and conduct in the regulated professions and occupations.

The rules must provide for adequate due process for licensed persons involved in disciplinary proceedings.

Be it enacted by the Legislature of the State of Montana:

Section 1. Purpose. The purpose of [sections 1 through 19] is to establish uniform guidelines for the licensing and regulation of professions and occupations under the jurisdiction of professional and occupational licensing boards governed by [sections 1 through 19].

Section 2. Definitions. As used in [sections 1 through 19], the following definitions apply:

(1) "Board" means a licensing board created under Title 2, chapter 15, that regulates a profession or occupation and that is administratively attached to the department as provided in 2-15-121.

(2) "Complaint" means a written allegation filed with a board that, if true, warrants an injunction, disciplinary action against a licensee, or denial of an application submitted by a license applicant.

(3) "Department" means the department of commerce.

(4) "Inspection" means the periodic examination of premises, equipment, or procedures or of a practitioner by the department to determine whether the practitioner's profession or occupation is being conducted in a manner consistent with the public health, safety, and welfare.

(5) "Investigation" means the inquiry, analysis, audit, or other pursuit of information by the department, with respect to a written complaint or other information before a board, that is carried out for the purpose of determining:

HeinOnline -- 1995 vol. II 1935 1995

(a) whether a person has violated a provision of law justifying discipline against the person;

(b) the status of compliance with a stipulation or order of the board;

(c) whether a license should be granted, denied, or conditionally issued; or

(d) whether a board should seek an injunction.

(6) "License" means permission granted under a chapter of this title to engage in or practice at a specific level in a profession or occupation, regardless of the specific term, such as permit, certificato, recognition, or registration, used for the permission.

(7) "Profession" or "occupation" means a profession or occupation regulated by a board.

Section 3. Scope. [Sections 1 through 19] govern the licensure, the practice and unauthorized practice, and the discipline of professions and occupations governed by this title unless otherwise provided by statutes relating to a specific board and the profession or occupation it regulates. The provisions of this chapter must be construed to supplement the statutes relating to a specific board and the profession it regulates. The method for initiating and judging a disciplinary proceeding, specified in [section 7(1)(e)], must be used by a board in all disciplinary proceedings involving licensed professionals.

Section 4. Licensure of out-of-state applicants. A board may issue a license to practice without examination to a person licensed in another state if the board determines that the other state's license standards at the time of application to this state are substantially equivalent to the standards in this state and that there is no reason to deny the license under the laws of this state governing the profession or occupation. The license may not be issued until the board receives verification from the stato or states in which the person is licensed that the person is currently licensed and is not subject to pending charges or final disciplinary action for unprofessional conduct or impairment.

Section 5. Temporary practice permits. (1) A board may issue a temporary practice permit to a person licensed in another state that has licensing standards substantially equivalent to those of this state if the board determines that there is no reason to deny the license under the laws of this state governing the profession or occupation. The person may practice under the permit until a license is granted or until a notice of proposal to deny a license is issued. The permit may not be issued until the board receives verification from the state or states in which the person is licensed that the person is currently licensed and is not subject to pending charges or final disciplinary action for unprofessional conduct or impairment.

(2) A board may issue a temporary practice permit to a person seeking licensure in this state who has met all licensure requirements other than passage of the licensing examination. The permit is valid until the person either fails the first license examination for which the person is eligible following issuance of the permit or passes the examination and is granted a license.

HeinOnline -- 1995 vol. II 1936 1995

Section 6. Continuing education. A board may require licensees to participate in flexible, cost-efficient, effective, and geographically accessible continuing education.

Section 7. Board authority. (1) A board may:

(a) hold hearings as provided in [sections 1 through 19];

(b) issue subpoenas and administer oaths in connection with investigations and disciplinary proceedings under [sections 1 through 19]. Subpoenas must be relevant to the complaint, issued hy a majority vote of board members not serving on the screening panel described in subsection (1)(e), and signed by the presiding officer of the board. Subpoenas may be enforced as provided in 2-4-104.

(c) authorize depositions and other discovery procedures under the Montana Rules of Civil Procedure in connection with an investigation, hearing, or proceeding held under [sections 1 througb 19];

(d) compel attendance of witnesses and the production of documents. Subpoenas may be enforced as provided in 2-4-104.

(e) establish a screening panel that determines whether there is reasonable cause to believe that a licensee has violated a statute or rule justifying disciplinary proceedings. The assigned board members may not subsequently participate in a hearing of the case. The final decision on the case must be made by a majority of the board members who did not serve on the screening panel for the case.

(f) grant or deny a license and, upon a finding of unprofessional conduct by an applicant or license holder, impose a sanction provided by this chaptor.

(2) Each board is designated as a criminal justice agency within the meaning of 44-5-103 for the purpose of obtaining confidential criminal justice information regarding its licensees and license applicants.

Section 8. Unprofessional conduct — complaint — investigation — immunity. (1) A person, government, or private entity may submit a writton complaint to the department charging a licensee or license applicant with a violation of [sections 1 through 19] and specifying the grounds for the complaint.

(2) If the department receives a written complaint or otherwise obtains information that a licensee or license applicant may have committed a violation of [sections 1 through 19], the department may, with the concurrence of a member of the screening panel established in [section 7], investigate to determine whether there is reasonable cause to believe that the licensee or license applicant has committed the violation. A person or private entity, but not a government entity, filing a complaint under this section in good faith is immune from suit in a civil action related to the filing or contents of the complaint.

Section 9. Notice — request for hearing. (1) If a reasonable cause determination is made pursuant to [section 7] that a violation of [sections 1 through 19] has occurred, a notice must be prepared by department legal staff and served on the alleged violator. The notice may be served by certified mail

HeinOnline -- 1995 vol. II 1937 1995

to the current address on file with the board or by other means authorized by the Montana Rules of Civil Procedure.

(2) A licensee or license applicant shall give the board the licensee's or applicant's current address and any change of address within 30 days of the change.

(3) The notice must state that the licensee or license applicant may request a hearing to contest the charge or charges. A request for a hearing must be in writing and received in the offices of the department within 20 days after the licensee's receipt of the notice. Failure to request a hearing constitutes a default on the charge or charges, and the board may enter a decision on the basis of the facts available to it.

Section 10. Hearing — adjudicative procedures. The procedures in Title 2, chapter 4, governing adjudicative proceedings before agencies; the Montana Rules of Civil Procedure; and the Montana Rules of Evidence govern a hearing under [sections 1 through 19]. A board has all the powers and duties granted by Title 2, chapter 4.

Section 11. Findings of fact — order — report. (1) If the board decides by a preponderance of the evidence, following a hearing or on default, that a violation of [sections 1 through 19] occurred, the department shall prepare and serve the board's findings of fact and an order as provided in Title 2, chapter 4. If the licensee or license applicant is found not to have violated [sections 1 through 19], the department shall prepare and serve the board's findings of fact and an order of dismissal of the charges.

(2) The department may report the issuance of a notice and final order to:

(a) the person or entity who brought to the department's attention information that resulted in the initiation of the proceeding;

(b) appropriate public and private organizations that serve the profession or occupation; and

(c) the public.

Section 12. Sanctions — stay — costs — stipulations. (1) Upon a decision that a licensee or license applicant has violated [sections 1 through 19] or is unable to practice with reasonable skill and safety due to a physical or mental condition or upon stipulation of the parties as provided in subsection (3), the board may issue an order providing for one or any combination of the following sanctions:

(a) revocation of the license;

(b) suspension of the license for a fixed or indefinite term;

(c) restriction or limitation of the practice;

(d) satisfactory completion of a specific program of remedial education or treatment;

(i) denial of a license application;

(j) refund of costs and fees billed to and collected from a consumer.

(2) A sanction may be totally or partly stayed by the board. To determine which sanctions are appropriate, the board shall first consider the sanctions that are necessary to protect or compensate the public. Only after the determination has been made may the board consider and include in the order any requirements designed to rehabilitate the licensee or license applicant.

(3) The licensee or license applicant may enter into a stipulated agreement resolving potential or pending charges that includes one or more of the sanctions in this section. The stipulation is an informal disposition for the purposes of 2-4-603.

(4) A licensee shall surrender a suspended or revoked license to the board within 24 hours after receiving notification of the suspension or revocation by mailing it or delivering it personally to the board.

Section 13. Appeal. A person who is disciplined or denied a license may appeal the decision to the district court as provided in Title 2, chapter 4.

Section 14. Reinstatement. A licensee whose license has been suspended or revoked under [sections 1 through 19] may petition the board for reinstatement after an interval set by the board in the order. The board may hold a hearing on the petition and may deny the petition or order reinstatement and impose terms and conditions as provided in [section 12]. The board may require the successful completion of an examination as a condition of reinstatement and may treat a licensee whose license has been revoked or suspended as a new applicant for purposes of establishing the requisite qualifications of licensure.

Section 15. Enforcement of fine. (1) If payment of a fine is included in an order and timely payment is not made as directed in the order, the board may enforce the order for payment in the district court of the first judicial district.

(2) In a proceeding for enforcement of an order of payment of a fine, tbe order is conclusive proof of the validity of the order of payment and the terms of payment.

Section 16. Unprofessional conduct. The following is unprofessional conduct for a licensee or license applicant governed by this chapter:

These principles are more rigorous, comprehensive, and businesslike than those contained elsewhere in this title. It is the intent of the legislature that all local governments eventually follow generally accepted accounting principles and auditing standards.

Section 2. Definition. For the purposes of [sections 1 through 4], "local government entity" means a consolidated city-county or a county or an incorporated city or town.

(4) A local government entity may not adopt the alternative accounting method unless it has received an auditor's unqualified opinion on its annual financial statements prepared for its preceding fiscal year.

(5) A local government entity that adopts the alternative accounting method by resolution shall submit a copy of the resolution to the department of commerce.

HeinOnline -- 1995 vol. II 2007 1995
